## The Oxford Educational Institutions Bangalore

### OVERVIEW

With a history stretching back over 3 decades, The Oxford Educational Institutions is recognized as a premier institution for quality education in India. A centre for academic excellence and achievement it is today one of the finest institutions providing its students with modern educational facilities while retaining traditional values, as well as using its strong industrial contacts to mold young, talented individuals who can compete in the global arena. The Oxford Educational Institutions under the aegis of Children's Education Society headed by the visionary educationist Vidyashree Shri. S Narasa Raju has 32 educational institutions from KG to PG courses including Dentistry, Nursing, Pharmacy, Physiotherapy Engineering, Computer Education, Management, Life Science and Law. The Oxford Group is rightly situated in Bangalore, beckoning knowledge seekers from all over the world, promising them a learning home. The aim of the institution is to rank among leading universities globally. Consequently the mission is to educate individuals to be competitive not only in India, but all over the world.

During the last 3 decades The Oxford Group has seen an immense growth under the able guidance and leadership of Shri. S.N.V.L Narasimha Raju, Executive Director with the high level of discipline imparting education to the students to meet the global challenges. Within an intensely competitive environment, the college has adopted a dynamic, global, high quality, creative and communicative approach in education, as well as research and development. Keeping abreast with modern developments, the institution is constantly restructuring itself and renovating its physical infrastructure as well as its research and education facilities. The Oxford College of Science and Management proudly stand on a sprawling new campus with a 6-storeyed building of 2 lakhs sq.ft area in HSR Layout, Sector IV.

The Oxford College of Science ranked 1 among private colleges in Karnataka for last 3 consecutive years (India Today June 2007, 2008 and 2009).

### QUALITY EDUCATION

The courses are designed to give you theoretical and practical skills needed for a career in the specified area within the companies and research organizations. The courses are delivered through lectures (from highly qualified staff and who are experienced in and outside the country, and from eminent scientists from various institutions), laboratory classes, demonstrations, project work and workshops. Course modules are assessed by variety of different types of course work including written assignments, oral presentation, poster presentations and examinations. The research project will involve design, implementation and reporting of a major research task. We have state-of-the-art classroom, library and laboratory facilities.
