

## **"New Beginnings at the Oxford College of Arts"**

### **Fresh start! A breath of fresh air! What students missed?**

As the country eased norms on COVID-19 guidelines, students breathed a sigh of relief as life showed gentle signs of returning to normalcy.

The Oxford College of Arts was quick to react and responded with slowly enrolling students in and bringing old school education back to life. In the light of new positivity, students and teachers alike were sent invitation to what was the first Orientation day in 2 Years with students present in full strength.

"Orientation Day", a great way to become familiar with the campus as well as meet some new people! The College wants you to become comfortable with college life before you arrive for your official first day at the campus. This day gives you the chance to make new friends, meet your classmates, tour the campus and much more.

The Orientation day took place on the 15th November 2021. It was presided over by the Principal of the Oxford College of Arts Dr. Taj Topisab along with the chairman Sri S. N. V. L. NARASIMHA RAJU.

Students from Arts and Science were largely part of this successful event. Sri S. N. V. L. Narasimha Raju spoke about strong values held by the institution. He focused on how The Oxford College of Arts has envisaged a vision of holistic development of its student and how the college endeavours to infuse into its students the thirst for knowledge and the spirit of investigation.

While Dr. Taj Topisab spoke about the achievements of the Arts departments including the students and teachers as a whole. He focused that the emphasis of the college is to inculcate a passion for their chosen field and mould them into professionals.

The Orientation day was applauded and loved by all as it breathed life and motivation back into students who craved for life to go back to normal after all the hardships faced to make learning and growing possible from home.

'EVERYONE KNEW' learning during the pandemic wouldn't be easy, but could we have guessed it would be quite this hard? NO!

But, we could all start fresh, we could all give life another chance. As the great Martin Luther King Jr. once said "Take the first step in faith. You don't have to see the whole staircase, just take the first step."
