

## WEBINAR

**Webinar** is a presentation, lecture, or seminar that is transmitted over the Web using video conferencing software. A key feature of a Webinar is its interactive elements, the ability to give, receive and discuss information. Contrast with Webcast, in which the data transmission is one way and does not allow interaction between the presenter and the audience.

The Oxford College of engineering organizes a series of webinar sessions for the development of student as well as faculty.

**.Net Webinar conducted by Expert from Microsoft Bangalore**

**Oracle VM Webinar conducted by Expert from Oracle Bangalore**
