## LIST OF ADD-ON COURSES

S.No.	Department	Name of Add-On Course
1	Dept. of Pharmacognosy	Course in HPTLC, HPLC and GC analysis of crude drugs.
2	Dept. of Pharmacognosy	Course in Natural Immunity Boosting Drugs as Therapeutic Innervations
3	Dept. of Pharmacognosy	Course on Monograph Analysis of Crude Drug
4	Dept. of Pharmacognosy	Course on Bioassay Guided Isolation and Evaluation of Herbal drugs
5	Dept. of Pharmacognosy	Course on Application of Plant Tissue Culture
6	Dept. of Pharmaceutical chemistry	Course in Green Chemistry
7	Dept. of Pharmaceutical chemistry	Course in Molecular Docking
8	Dept. of Pharmaceutical chemistry	Course on Applied Bioinformatics
9	Dept. of Pharmaceutical chemistry	Course on Pharma Marketing
10	Dept. of Pharmaceutical chemistry	Course on Research & Review paper, Research Proposal Writing skill
11	Dept. of Pharmacology	Course on Invitro- Mutagenicity and Teratogenicity
12	Dept. of Pharmacology	Course on Cell Free Transcription & Translation
13	Dept. of Pharmacology	Course on Osteopharmacology
14	Dept. of Pharmacology	Course on Pharmacogenomics and genomics Data analysis
15	Dept. of Pharmacology	Course on Spectroscopic Methods for the Detection of Microbial Pathogens and Diagnostic Infectious diseases
16	Dept. of Pharmacy practice	Course on Clinical Data Management
17	Dept. of Pharmacy practice	Course on Understanding Clinical Documents & Software Used in Clinical Setting
18	Dept. of Pharmacy practice	Course on First Aid & Emergency Care by Pharmacist
19	Dept. of Pharmacy practice	Course on Basic Terminology in Pharmacovigilence
20	Dept. of Pharmacy practice	Course on Prescription Handling Management & Analysis of Prescription
21	Dept. of Pharmaceutics	Course on Medications You need to know
22	Dept. of Pharmaceutics	Course on Food Regulations
23	Dept. of Pharmaceutics	Course on Medical Devices
24	Dept. of Pharmaceutics	Course on Polymers & Its Significance in Noval Drug Delivery System
25	Dept. of Pharmaceutics	Course on Knowledge Enrichment On Unit Processing of Tablets

Bengaluru, Karnataka -560 068

**Important Dates**

Duration: 30 hours

Last date for registration: 4<sup>th</sup> January 2023

Date of commencement: 7<sup>th</sup> January 2023

Final Examination : March 2023

### For Further Information Contact

Dr. Padmaa M Paarakh

Professor,

Department of Pharmacognosy,  
TOCP, Bengaluru.

Email:

[padmaamparakh@gmail.com](mailto:padmaamparakh@gmail.com)

### REGISTRATION

Registration Fees	NIL It is a free course offered by The Oxford College of Pharmacy, Bengaluru-68
Contact person for registration	Dr Padmaa M Paarakh Course Coordinator 9880681532

### STRUCTURE

- Course will be conducted for Total 30 hours after the college hours.
- Course will be conducted through offline mode.
- Every Saturday and Monday after the college hours(Offline).

### COURSE DESCRIPTION

The Department of Pharmacognosy, TOCP, Bengaluru introduces 30 hours course in HPTLC, HPLC and GC analysis of crude drugs(Course Code: HGACD2022-23) This course offers the basic knowledge about HPTLC,HPLC and GC application in analysis of crude drug.

### OBJECTIVES OF THE PROGRAM

- To gain knowledge about the analytical methods like HPTLC HPLC and GC.
- Number of the analytical method are available but chosen method should be sensitive, specific, fast and accurate to carrying out analysis.
- The present course is aimed towards a better understanding of the basic concepts and advances in analytical techniques in HPTLC, HPLC and GC and characterization of crude drug.

### FINAL ASSESSMENT

Final exam will be conducted at the end of the syllabus

### DURATION

30 hours beginning from 7<sup>th</sup> January 2023

### OUTCOME

- This course provides an overview of Advanced analytical instrumental techniques like HPTLC,HPLC and GC.
- Role of HPTLC,HPLC and GC in identification, characterization and quantification of drug
- Acquiring Skills in selecting the suitable techniques for analysis of crude drugs
- To apply the knowledge learnt in developing new procedures for analysis of crude drug.

### REGISTRATION PROCESS

Students can directly contact course Co-ordinator.

## Course in HPTLC, HPLC and GC analysis of crude drugs (Course Code: HGACD2022-23) Syllabus

Module	Chapter/Topic
Module 1	HPTLC-Introduction, basic principle, difference between HPTLC and TLC
	HPTLC- Instrumentation
	Validation of HPTLC
	Applications of HPTLC
	HPLC-introduction, comparison with column chromatography
	Types of HPLC techniques
	Parameters involved in HPLC method of separation
	HPLC- instrumentation
	Applications of HPLC
	Comparative study between HPTLC and HPLC
	GC- Introduction, basic principle
	GC- Instrumentation
	Factors affecting the separation of components
	Applications of GC
Module 2	Assay of <i>Aloes</i> by HPTLC
	Assay of <i>Withania somnifera</i> by HPTLC
	Assay of <i>Ocimum tenuiflorum</i> by HPTLC
	Assay of <i>Aegle marmelos</i> by HPTLC
	Assay of <i>Emblica officinalis</i> by HPTLC
	Assay of <i>Phyllanthus amarus</i> by HPLC
	Assay of <i>Mucuna pruriens</i> by HPLC
	Assay of <i>Centella asiatica</i> by HPLC
	Assay of <i>Acacia nilotica</i> by HPLC
Module 3	Assay of <i>Cassia occidentalis</i> by GLC
	Assay of <i>Cinnamomum verum</i> by GLC
	Assay of <i>Curcuma amada</i> by GLC
	Assay of <i>Eletarria cardamomum</i> by GLC
	Assay of <i>Moringa oleifera</i> by GLC

## Course in HPTLC, HPLC and GC analysis of crude drugs

(Course Code: HGACD2022-23)

### Outcome Report

The Department of Pharmacognosy, The Oxford College of Pharmacy, Bangalore- 560068, completed course in HPTLC, HPLC and GC analysis of crude drugs (Course Code: HGACD2022-23). Total 33 students were registered and the course was conducted for 30 hours. This course trained the participants towards a better understanding of the basic concepts and advances in analytical techniques like HPTLC, HPLC and GC and characterization of crude drug

Outcomes: At the end of this course students were able to

- Know the overview of advanced analytical instrumental techniques like HPTLC, HPLC and GC.
- Know the role of HPTLC, HPLC and GC in identification, characterization and quantification of drug
- Acquired Skills in selecting the suitable techniques for analysis of crude drugs
- Apply the knowledge learnt in developing new procedures for analysis of crude drug.

The students were satisfied and were keen to attend such programs in future

## COURSE IN HPTLC, HPLC AND GC ANALYSIS OF CRUDE DRUGS

(Course Code: HGACD 2022-23)

### Completion Report

The Department of Pharmacognosy, The Oxford College of Pharmacy, Bangalore, conducted a course on HPTLC, HPLC and GC analysis of crude drugs (Course Code: HGACD 2022-23) for the academic year 2022-23. This course was intended to impart knowledge to the students about HPTLC, HPLC and GC application in analysis of crude drug.

The course was started with a inaugural function by welcoming the chief guest Dr. Ravi Kumar, Director, The Oxford Group of Institutions. The program was conducted at Room No. 506 and all the participants were introduced by Dr Padmaa M Paarakh, Course Coordinator. Total 33 students were present. The inaugural function has been summed up with the introductory lecture of course coordinator Dr Padmaa M Paarakh.

Total thirty-hour course had been conducted after the college hours on Saturday and Monday. Total 33 students were enrolled for this course.

The syllabus of the course had been divided into three modules. After the completion of each module an internal assessment was conducted, and overall test was conducted after the completion of the course.

The results of the tests conducted for all the three modules and overall were analysed. Approximately 53.7 % students scored grade A in all the tests followed by 33.3 % who scored grade B and 13 % scored grade C. Students have shown keen interest in attending and learning the contents of the course and doubts were clarified after the classes.

The valedictory function has been conducted on 27/03/2023 and the course participation certificate were distributed to all 33 students. The guest of the valedictory function, Dr. Ravi Kumar, Director, The Oxford Group of Institutions appreciated the enthusiasm of the students and the efforts taken by the course coordinator in organizing the course. The Principal had thanked the management for providing best infrastructure for carrying out such courses in future also. The guest of the valedictory function Dr. Ravi Kumar, Director, had appreciated the enthusiasm of the students in this course and Congratulate the Department of Pharmacognosy for successful completion of course.

Students Pursuing Pharmacy Degree i.e., B. Pharm. Students from third, fourth, fifth, sixth, seventh, eighth semesters B. Pharm, Pharm. D, Pharm. D (PB), M. Pharm.

## REGISTRATION

Registration	NIL
Fees	It is a free course offered by The Oxford College of Pharmacy, Bengaluru-68
Contact person for registration	Mrs. T Sravani Course Co-ordinator 9739012427

## STRUCTURE

- Course will be conducted for Total 30 hours after the college hours.
- Course will be conducted through offline mode.
- Every Saturday and Monday after the college hours(Offline).

## COURSE DESCRIPTION

The Department of Pharmacognosy, TOCP, Bengaluru introduces a thirty hours course in Natural Immunity boosting drugs as therapeutic interventions (NIBD2022 23). This course offers the basic knowledge about drugs which play a major role to boost the immunity.

## OBJECTIVES OF THE PROGRAM

- To gain knowledge about the Immunity and ways to improve it.
- Number of herbal drugs play an important role in management of few diseases.
- The present course is aimed towards a better understanding of the drugs which are beneficial for boosting up immunity and help as therapeutic interventions.

## FINAL ASSESSMENT

Final exam will be conducted at the end of the syllabus

## DURATION

Thirty hours beginning from 25<sup>th</sup> January 2023.

## OUTCOME

- This course provides an overview of Immunity and immune boosters.
- Role of herbal drugs used in day-to-day life to boost immunity.
- To apply the knowledge learnt about the herbal drugs in preventing and management of few diseases.

## REGISTRATION PROCESS

Students can directly contact to course Co-ordinator Mrs. Sravani T.

(Course Code: NIBD2022-23)

### Syllabus

Module	Chapter/Topic
MODULE 1	What is Immune system?
	What factors depress Immune system
	Does an immune boosting diet exist?
	Role of herbs to boost the immune system
	Ayurveda's immunity boosting measures for self-care during COVID-19
	Immunity enhancing formulations prescribed by AYUSH
	Corona virus and role of immune boosters
	Role of herbs as natural immune boosters
	Role of Ashwagandha as immune booster
	Role of Mulethi as immune booster
	Role of Amla as immune booster
MODULE 2	Role of Tulsi as immune booster
	Role of Neem as immune booster
	Role of Guduchi as immune booster
	Role of Ginger as immune booster
	Role of Honey as immune booster
	Role of Turmeric as immune booster
	Role of Brahmi as immune booster
	Role of Mandukaparni immune booster
	Role of Black cumin as immune booster
	Role of Echinacea as immune booster
MODULE 3	Role of Asparagus as immune booster
	Role of Sweet potato as immune booster
	Role of Sun flower seeds as immune booster
	Role of Drumstick leaves as immune booster
	Role of Black pepper as immune booster
	Role of Harde as immune booster
	Role of Bahera as immune booster
	Role of Peppermint as immune booster
	Role of Tea as immune booster

## Course in Natural Immunity Boosting Drugs as Therapeutic Interventions (Course Code: NIBD2022-23)

### COMPLETION REPORT

The Department of Pharmacognosy, The Oxford College of Pharmacy, Bangalore, organized a course in Natural immunity boosting drugs as therapeutic interventions (Course Code: NIBD2022-23) for the academic year 2022-23. This course offers knowledge about immunity boosting drugs. This course provides an overview of immunity boosting drugs, importance and its uses.

The course was started with a formal inaugural function by welcoming the Principal Dr. Padmaa M Paarakh. The function was conducted at Room NO-507 and all the participants were introduced by Mrs Sravani T, Course Coordinator. Total 29 students were present. The inaugural function had been summed up with the introductory lecture of course coordinator Mrs Sravani T.

A total 30 hours course had been conducted after the college hours of every Saturday and Monday. Total 29 students were enrolled for this course.

The syllabus of the course had been divided into three modules. After the completion of each module an internal assessment was conducted, and overall test was conducted after the completion of the course.

The results of the tests conducted for all the three modules and overall were analysed. Approximately 54% students scored grade A (marks percentage 95-100%) in all the tests followed by 35.6% who scored grade B (marks percentage 90-94%) and 10.3% scored grade C (marks percentage 85-89%). The performance of the students in the tests were found excellent. About ninety two percent of the students had secured excellent grades in all the tests. Students had shown keen interest in attending and learning the concepts and the doubts were also clarified after the classes.

The valedictory function has been conducted on 29.04.2023 and the participation certificate distributed to all 29 students by the Principal, Dr. Padmaa M Paarakh. The coordinator had thanked Principal and management for providing best infrastructure for carrying out such courses in future also. The guest of the valedictory function, Dr. Padmaa M Paarakh, Principal, had appreciated the enthusiasm of the students in this course and Congratulate the Department of Pharmacognosy and the course coordinator Mrs Sravani T for successful completion of course.

## Course In Monograph Analysis of Crude Drugs

(Course Code: MACD2022-23)

### Syllabus

Module	Chapter/Topic
MODULE 1	Introduction
	Preparation, purpose, content, use of monographs
	Indian Pharmacopoeia (IP)
	History of IP
	Role of IPC in frequent publication of IP
	Growth of IP standards
	Monograph development of herbs
	Monograph development of processed herbs and herbal products
	Individual monograph on herbal medicines according to WHO
	Individual monograph on herbal medicines according to WHO
	A brief history of pharmacopoeias: A global perspective
	A brief history of pharmacopoeias: A global perspective
	MODULE 2
Monograph analysis of <i>Acacia catechu</i>	
Monograph analysis of <i>Ephedra sinica</i>	
Monograph analysis of <i>Ephedra sinica</i>	
Monograph analysis of <i>Agele marmelos</i>	
Monograph analysis of <i>Agele marmelos</i>	
Monograph analysis of <i>Gymnema sylvestre</i> ,	
Monograph analysis of <i>Gymnema sylvestre</i> ,	
Monograph analysis of <i>Andrographis paniculata</i>

## Course in Monograph Analysis of Crude Drugs (Course Code: MACD2022-23)

### Completion Report

The Department of Pharmacognosy, The Oxford College of Pharmacy, Bangalore, conducted a course in Monographic analysis of crude drugs (Course Code: MACD2022-23) for the academic year 2022-23. This course offers knowledge about Monograph analysis of crude drugs. It also helps in better understanding of Indian Pharmacopoeia and role of IPC in developing quality monographs.

The course was started with a formal inaugural function by welcoming the Principal Dr. Padmaa M Paarakh. The function was conducted at Room NO -501 and all the participants were introduced by Course Coordinator Mrs Chaithra K. Total 20 students were present. Our principal had emphasized on the importance of doing such courses in academics as well as in future also. The inaugural function has been summed up with the introductory lecture of course coordinator.

A total thirty-hour course had been conducted after college hours on Saturday and Monday. Total 20 students have enrolled for this course.

The syllabus of the course had been divided into three modules. After the completion of each module an internal assessment was conducted, and overall test was conducted after the completion of the course.

The results of the tests conducted for all the three modules and overall were analysed. Approximately 58.33% students scored grade A (Marks percentage 95-100%) in all the tests followed by 35% who scored grade B (Marks percentage 90-94%) and 6.6% scored grade C (Marks percentage 85-89%). The performance of the students in the tests were found excellent. About ninety one percent of the students had secured excellent grades in all the tests. Students had shown keen interest in attending and learning the concepts and the doubts were also clarified after the classes.

The valedictory function has been conducted on 21.10.2023 and the participation certificate were distributed to all 20 students by Principal Dr. Padmaa M Paarakh. The coordinator had thanked Principal and management for providing best infrastructure for carrying out such courses in future also. The guest of the valedictory function, Dr. Padmaa M Paarakh, Principal, had appreciated the enthusiasm of the students in this course and Congratulate the Department of Pharmacognosy and the course coordinator, Mrs Chaithra K for successful completion of course.

**(Course Code: MACD2022-23)**

**OUTCOME REPORT**

The Department of Pharmacognosy, The Oxford College of Pharmacy, Bangalore-560063, completed Course on Monograph analysis of crude drugs 2022-23 (Course Code: MACD2022-23). About 20 students were registered and the course was conducted for 30 hours. This course offers knowledge about important and uses of Monograph analysis of crude drugs. It also helps in better understanding of Indian Pharmacopoeia and role of IPC in developing quality monographs.

**OUTCOMES:** At the end of this course students were able to

- Know overview of monograph, importance and its uses.
- Know the role of IPC in developing quality monographs.
- Understand the steps involved in the preparation of monograph according to standard pharmacopoeias.
- Apply the knowledge learnt in developing new monographs crude drugs.

The students were satisfied and were keen to attend such programmes in future.

Notice Board

To be read in the class rooms

Course Coordinator -Mrs. Pavithra devi. R

To be filed

The Oxford College of Pharmacy, Bangalore introduces a 30 hours course on Bioassay guided isolation and evaluation of herbal drugs for the academic year 2022-23, for the benefit of M. Pharma, B Pharm, Pharm. D, and Pharm. D (Post baccalaureate) students. This course is offered at no cost. There is no academic credit offered for this course. The total duration of this course is 30 hours. The classes for the course will start from 24<sup>th</sup> July 2023 and will be conducted every Saturday and Monday after class hours. The eligibility criteria include students pursuing Pharmacy degree, that is M, Pharma, B Pharm, Pharm. D, and Pharm. D (Post baccalaureate). Interested students can enroll with Mrs. Pavithra Devi. R, Course coordinator on or before 21<sup>th</sup> July 2023.

## REGISTRATION

Registration Fees	NIL It is a free course offered by The Oxford College of Pharmacy, Bengaluru-68
Contact person for registration	Mrs.Pavithra Devi.R Course Co-ordinator 8618064372

## STRUCTURE

- Course will be conducted for total 30 hours after the college hours.
- College will be conducted through offline mode.
- Every Saturday and Monday after the college hours(offline).

## COURSE DESCRIPTION

The Department of Pharmacognosy, TOCP, Bengaluru introduces a thirty hours course on **Bioassay guided isolation and evaluation of herbal drugs (Course code: BAIEH2022-23)**. This course offers the basic knowledge about bioassay guided isolation of crude drugs.

## OBJECTIVES OF THE PROGRAM

- To gain knowledge about the bioassay guided isolation which is used for profiling and screening of plant extracts.
- Number of methods are available, but this enables for characterization of species causing an observed biological activity.
- The present course is aimed towards a better understanding of the basic concepts and advances in isolation of pure drug molecules with associated biological activity.

## FINAL ASSESSMENT

Final exam will be conducted at the end of the syllabus.

## DURATION

30 hours beginning from 24<sup>th</sup> July 2023

## OUTCOME

- This course provides an overview of bioassay guided isolation of crude drugs.
- Bioassay guided fractionation protocol.
- To understand the isolation, evaluation process and to apply in natural product therapeutic lead discovery programs.

## REGISTRATION PROCESS

Students can directly contact respective course co-ordinator.

(COURSE CODE: BAGF22-23)

### Syllabus

Module	Chapter/Topic
Module 1	Bioassay and its importance in the evaluation of herbal drugs
	Types and Methods of Bioassay
	Applications of Bioassay
	<i>In Vivo</i> -bioassay model-Brine Shrimp Model
	<i>In Vivo</i> -bioassay model-Zebrafish Model
	<i>In Vivo</i> -bioassay model-Drosophila Model
	<i>In Vivo</i> -bioassay model-Animal Model
	Bioassay in Isolated Organs
	Cell-Based Bioassay
	Cell Viability Assays
	Cell Proliferation Assays
	Cytotoxicity Assays
	Second Messenger Assay
	Reporter Gene Assay
	Enzyme-Based Bioassay
Receptor-Based Bioassay	
Module 2	Methods and Applications of Anticancer Bio assays
	Methods and Applications of Anti viral Bio assays
	Methods and Applications of Anti tuberculosis Bio assays
	Methods and Applications of Thrombus- Related Bio assays
	Methods and Applications of Anticoagulation Bio assays
	Methods and Applications of Blood pressure related Bio assays
	Methods and Applications of Alzheimers Disease Bio assays
	Methods and Applications of Parkinson's Disease and Graves Disease Bio assays
Module 3	“Omics”-Guided Approach 1 Genomics, Proteomics and Metabolomics
	Bioassay guided fractionation protocol and isolated compounds
	Bioassay-guided fractionation and identification of $\alpha$ -amylase inhibitors from <i>Syzygium cumini</i> leaves.
	Antiplasmodial Properties and Bioassay-Guided Fractionation of Ethyl acetate extracts of <i>Carica papaya</i> leaves.
	<i>Piper betel</i> leaf extract: anticancer benefits and bio-guided fractionation to identify active

## COURSE ON BIOASSAY GUIDED ISOLATION AND EVALUATION OF HERBAL DRUGS

(Course Code: BAIEH 2022-23)

### OUTCOME REPORT

The Department of Pharmacognosy, The Oxford College of Pharmacy, Bangalore- 560068, completed a course on Bioassay Guided Isolation and Evaluation of Herbal Drugs 2022-23 (course code: BAIEH 2022-23). 21 students were registered and the course was conducted for 30 hours. The course outcome is to understand bioassay guided isolation which is used for profiling and screening of plant extracts. The course focused on enhancing the knowledge about the basic concepts and advances in isolation of pure drug molecules with associated biological activity.

Outcomes: At the end of this course students were able to

- Overview of bioassay guided isolation of crude drugs.
- Understand bioassay guided fractionation protocol.
- Understand the isolation evaluation process and to apply in natural product therapeutic lead discovery programs.

The students were satisfied and were keen to attend such programs in future.

## COURSE ON BIOASSAY GUIDED ISOLATION AND EVALUATION OF HERBAL DRUGS

(Course Code: BAIEH 2022-23)

### Completion Report

The Department of Pharmacognosy, The Oxford college of Pharmacy, Bangalore, conducted a Course in Bioassay guided isolation and evaluation of herbal drugs (Course Code: BAIEH 2022-23) for the academic year 2022-23. The course was intended to impart knowledge to the students about the basics of principles, techniques and applications related Bioassay guided isolation and evaluation of herbal drugs.

The course was started with an inaugural function by welcoming the Principal Dr Padmaa M Paarakh. The function was conducted at Room NO-506 and all the participants were introduced by Course Coordinators Mrs Pavithra Devi. R. Total 21 students were present. Our principal had emphasized on the importance of doing such courses for betterment of their future. The inaugural function has been summed up with the introductory lecture of course coordinator Mrs. Pavithra Devi. R

A total thirty hours course had been conducted after the college hours of every Saturday and Monday

The syllabus of the course had been divided into three modules. After the completion of each modules an internal assessment was conducted and overall test was conducted after the completion of the course.

The results of module I, II, III and overall were analysed. Approximately 36.50 % students scored grade A (marks percentage-100%) in all the tests followed by 50.79% who scored grade B (marks percentage-90%) and 11.11 % scored grade C (marks percentage-80%) and 0 % scored grade D (marks percentage-70 and below %).

The performance of the students in the tests were found excellent. About ninety percent of the students had secured excellent grades in all the tests. Students had shown keen interest in attending and learning the concepts and the doubts were also clarified after the classes.

The valedictory function has been conducted on 21/10/2023 and the course participation certificates were distributed to all 21 students by the Principal & Head of the Department Dr. Padmaa M Paarakh, and we had thanked management for providing best infrastructure for carrying out such courses. Behalf of department she promised to carry out such courses in future also. The guest of the valedictory function, Dr Padmaa M Paarakh, Principal, had appreciated the enthusiasm of the students in this course and Congratulate the Department of Pharmacognosy and the course co-ordinator Mrs Pavithra Devi. R for successful completion of the course.

### REGISTRATION

Registration Fees	NIL It is a free course offered by The Oxford College of Pharmacy Bangalore-68
Contact person for registration	Mrs. Sravani. T 9739012427

### STRUCTURE

- Course will be conducted for total 30 hours after the college hours.
- Course will be conducted through offline mode.
- Every Thursday and Friday after the college hours (offline).

### COURSE DESCRIPTION

The Department of Pharmacognosy, TOCP, Bangalore- 560068 introduces a 30 hours course in Applications of Plant Tissue Culture (Course Code: PTC 2022-23). This course offers the aims to impart understanding of the basic principles of the plant science & Molecular Biology which can be applied in day today life and research work.

### OBJECTIVES OF PROGRAM

- This course is designed to provide knowledge in current technological developments in research with trends in the aims & needs of today's biotechnology industries.
- Explains the Design & application of bioreactors, fermenters, Different Tissue culture technique methods of obtaining of genetically modified plants with its application. Production of Vitamins, Ergot alkaloids.

### FINAL ASSESSMENT

Final exams will be conducted at the end of the syllabus by online test.

### DURATION

30 hours starting from 08  
January 2023

### OUTCOME

- Recall the basic concepts of biotechnology & explain fundamental cellular events during the process of plant cell culture development.
- Determine the factors influencing plant cell differentiation & thereby execute proper techniques/procedures for the maintenance of sterile condition & proper plant growth.
- Design an experiment with step-by-step instructions to address a research problem

### REGISTRATION PROCESS

(Course Code: PTC 2022-23)

### SYLLABUS

S. No	Module	Topic
I	Introduction	Introduction to the program
II	Module I	Introduction to Plant biotechnology
		Study of DNA, RNA, and protein replication
		Techniques of DNA recombinant technology
		Genetic code, regulation of gene expression
		Structure and complicity of genome, cell signaling
		Genetic Engineering of Plants Methodology
		Gene Transfer methods
III	Module II	Introduction and applications of Plant tissue culture
		Types of Plant tissue cultures
		Sterilization methods involved in tissue culture, gene transfer in plants and their applications.
		Enzyme Immobilization
		Fermenters and design of bioreactors
		Applications of Plant Transformation / Transgenic Plants
		Protoplast Fusion Technology
IV	Module III	Cloning of plant cell: Different methods of cloning & applications. Advantages and disadvantages of plant cell cloning
		Applications of Enzyme Immobilization
		Transgenic plants
		Application of Fermentation technology
		Production of Ergot alkaloids
		Production of Vitamins and other metabolites of pharmaceutical uses
		Production of Primary metabolites

## COURSE ON APPLICATION OF PLANT TISSUE CULTURE

(Course Code: PTC 2022-23)

### Outcome Report

The Department of Pharmacognosy, The Oxford College of Pharmacy, Bangalore-560068, completed course on Application of Plant tissue culture (Course Code PTC 2022-23) 21 students were registered and the course was conducted for 30 hours. This course trained registrants to have a basic awareness about the various concepts and techniques involved in the Plant tissue culture and the basic, economic & commercial application in plant tissue culture. Current technological developments in research field. The course focused on enhancing the knowledge regarding the methods of obtaining of genetically modified plants with its application, production of vitamins, Ergot alkaloids.

OUTCOMES: At the end of this course students were able to

- 1) Recall the basic concepts of biotechnology & explained fundamental cellular events during the process of plant cell culture development.
- 2) Determine the factors influencing plant cell differentiation & thereby execute proper techniques/procedures for the maintenance of sterile condition & proper plant growth.
- 3) Design an experiment with step-by-step instructions to address a research problem

The students were satisfied and were keen to attend such programs in future.

- Every Friday and Saturday. (offline).

## COURSE DESCRIPTION

The Department of Pharmaceutical Chemistry, TOCP, Bangalore introduces a thirty hours course in GREEN CHEMISTRY (Course Code: GRCH 2022-23). This course offers the basic knowledge about the Green chemistry which can be applied in the drug development.

## OBJECTIVES OF PROGRAM

- The course provides the knowledge on chemical processes and modern synthetic methods.
- It mainly focused on the design of chemical products and process that minimize or eliminate the use and generation of hazardous substances.
- This certificate course will help the students in design new methods of synthesis and use of alternate chemical reaction pathways for designing molecule.

## OUTCOME

- Design chemical processes that reduce or eliminate the use or generation of hazardous substances.
- Design, develop and implement synthetic chemical schemes and processes on different chemical methods.
- Use of eco friendly chemicals.

## FINAL ASSESSMENT

Final exams will be conducted at the end of the syllabus.

## DURATION

- Thirty hours.

## REGISTRATION PROCESS

- Contact your course coordinators and register.

## COURSE IN GREEN CHEMISTRY

(Course Code: GRCH 2022-23)

### SYLLABUS

MODULE	TOPIC
Module I	<b>Green chemistry</b>
	Introduction green chemistry
	History of green chemistry
	<b>Principles of green chemistry</b>
	Prevention
	Atom economy
	Less hazardous chemical synthesis
	Designing safer chemical
	Safer solvents and auxiliaries
	Design for energy efficiency
	Use of renewable feedstocks
	Reduce derivatives
Module II	<b>Principles of green chemistry</b>
	Catalysis
	Design for degradation
	Real time analysis for pollution prevention
	Inherently benign chemistry for accident prevention
	<b>Microwave assisted organic synthesis</b>
	Microwave irradiation
	Mechanism of microwave
	A) Dielectric Heating
	B) Dipolar Polarization Mechanism
	C) Conduction Mechanism
Conventional heating and microwave heating	
Module III	<b>Technique of microwave system</b>
	Domestic house hold oven
	Reflux system
	Pressurized system
	Continuous flow system
	Microwave synthesis of nanoparticle
	Microwave synthesis
	Microwave assisted peptide synthesis
	<b>Ultrasound Assisted Organic synthesis</b>
	Introduction of UAOS
	Types of sonochemical reaction
Ultrasound assisted synthesis of heterocycle

## COURSE IN GREEN CHEMISTRY

(Course Code: GRCH 2022-23)

### OUTCOME REPORT

The Department of Pharmaceutical Chemistry, The Oxford College of Pharmacy, Bangalore- 560068, had completed course in GREEN CHEMISTRY 2022-23 (Course Code: GRCH 2022-23). 24 students were registered and the course was conducted for 30 hours. This course trained registrants to have a key information throughout the Green chemistry process. The course provided knowledge on chemical processes and modern synthetic methods.

**Outcomes :** At the end of this course students were able to

- Design chemical processes that reduce or eliminate the use or generation of hazardous substances.
- Design, develop and implement chemical products and processes on different chemical method.
- Understand the use of eco-friendly chemicals.

The students were satisfied and were keen to attend such programs in future.

## COURSE IN GREEN CHEMISTRY

(Course Code: GRCH 2022-23)

### Completion Report

The Department of Pharmaceutical Chemistry, The Oxford college of Pharmacy, Bangalore, conducted a course in Green chemistry (Course Code:GRCH 2022-23 ) for the academic year 2022-23. The course was intended to impart knowledge to the students about the basics of Green chemistry to benefit them design chemical processes that reduce or eliminate the use or generation of hazardous substances.

The course was started with a inaugural function by welcoming the Principal Dr. Padmaa M Paarakh. The function was conducted at seminar room. All the participants were introduced by Mrs Pradeepa Prasad, Assistant professor Department of Pharmaceutical chemistry. 24 students joined for the function. The inaugural function has been summed up with the introductory lecture of course coordinator Mr. Akshay C.

Total 30 hours course had been conducted after the college hours on Friday and Saturday. Total 24 students were enrolled for this course.

The syllabus of the course had been divided into three modules. After the completion of each modules an internal assessment was conducted and overall test was conducted. The results of module I, II, III were analysed: Approximately 40.6 % students scored grade A (marks percentage-95-100%) in all the tests followed by 42.7% who scored grade B (marks percentage-90-94%) and 16.6 % scored grade C (marks percentage-85-80 %) and 0% Scored D (marks percentage-80-84%). The performance of the students in the tests were found good. About Eighty-three percentage of the students had secured excellent grades in all the tests. Students had shown keen interest in attending and learning the concepts and the doubts were also clarified after the classes.

The valedictory function has been conducted on 15-4-23 and the participation certificate were distributed to all 24 students by the Principal Dr. Padmaa M.Paarakh and Head of the Department Dr Jyoti Shrivastava. Dr. Jyoti, thanked Principal madam and management for providing best infrastructure for carrying out such courses. On behalf of department, she promised to carry out such courses in future also.

The guest of the valedictory function, Dr Padmaa M Paarakh, Principal, TOCP, Bangalore had appreciated the enthusiasm of the students for this course and congratulate the Department of Pharmaceutical Chemistry and the course coordinator Mr Akshay C for successful completion of the course.

Course Coordinator -Mrs. Pradeepa Prasad,

To be filed

The Oxford College of Pharmacy, Bangalore introduces 30 hours course on **Molecular Docking** for the academic year 2022-23, for the benefit of M. Pharm, B. Pharm, Pharm. D and Pharm D (Post Baccalaureate) students. This course is offered at no cost. There is no academic credit offered for this course. The total duration of this course is 30 hours. The classes for the course will start from 5<sup>th</sup> Aug 2023. The classes will be conducted every Thursday, Friday and Saturday after the regular class hours. The eligibility criteria include students pursuing Pharmacy degree, that is M. Pharm, B. Pharm, Pharm. D and Pharm D (Post Baccalaureate) students. Interested students can enroll with Mrs. Pradeepa Prasad, course coordinator on or before 3<sup>rd</sup> Aug 2023.

### ELIGIBILITY CRITERIA

Students Pursuing Pharmacy Degree i.e., M. Pharm, B. Pharm, Pharm. D and Pharm. D (Post-Baccalaureate).

### Course On "MOLECULAR DOCKING"

### Organized by **THE OXFORD COLLEGE OF PHARMACY**

Department of Pharmaceutical  
Chemistry,  
1st Main Rd, Hongasandra,  
Bengaluru, Karnataka 560068

**Duration: 30 hours**  
**Late date for Registration: 03/08/2023**  
**Date of commencement: 05/08/2023**  
**Date of examination: After completion  
of 30hours classes**

## REGISTRATION

Registration Fees	NIL It is a free course offered by The Oxford College of Pharmacy Bangalore-68
Contact person for registration	Mrs. Pradeepa Prasad 8921969168

## STRUCTURE

- Course will be conducted for 30 hours.
- Course will be conducted through offline mode.
- Course will be conducted on every Thursday, Friday and Saturday after the college hours. (offline)

## COURSE DESCRIPTION

The Department of Pharmaceutical Chemistry, TOCP, Bangalore introduces a thirty hours certificate course on Molecular Docking (Course Code: MDOC 2022-23). This course offers the basic knowledge about the Docking tools which can be applied in the drug development and research activities.

## OBJECTIVES OF PROGRAM

- The course provides the knowledge about the most frequently used methods in structure-based drug design.
- This docking study helps the students to analyse the conformation and orientation of molecules into the binding site of a macromolecular target.
- It provides the students to study on various software used for molecular docking studies.

## FINAL ASSESSMENT

Final exams will be conducted at the end of the syllabus.

## DURATION

- Thirty hours.

## OUTCOME

- This course will provide various docking methods, which is used in drug discovery studies and to develop the desired three-dimensional structures of compounds.
- Students are able to handle various software used for molecular docking studies.
- Students will learn about methods used to estimate a compound's biological activity by looking at how it interacts with prospective targets.

## REGISTRATION PROCESS

- Contact your course coordinators and register.

MODULE	TOPIC
Module I	<b>INTRODUCTION TO MOLECULAR DOCKING</b>
	Introduction
	Molecular Docking Models
	Experimental Methods, Computational Docking
	Docking and its types
	Molecular Complementarity
	Molecular based Docking, Rigid docking, Flexible Docking
	Molecular Flexibility
Module II	<b>TYPES AND MECHANICS OF DOCKING</b>
	Specialized types of docking
	Hydrated and Metal ion docking
	<b>MECHANICS OF DOCKING</b>
	Molecular Representation
	Scoring methods and functions
	Search Algorithms
	Two Docking Philosophies
	Target selection and preparation, Ligand selection and Preparation
	Docking
Module III	<b>EVALUATION</b>
	Evaluating docking results
	Docking Algorithms
	<b>DRUG PROPERTIES</b>
	Binding properties Of Target & Ligand
	Drug Likeness & Properties -Solubility and Molecular weight
	Drug Scores & SWISS ADME
	Lipinski's Rule and Veber rule
	Drug properties calculation
	Application of Molecular Docking
Practical Consideration

## COURSE ON MOLECULAR DOCKING

(Course Code: MDOC 2022-23)

### OUTCOME REPORT

The Department of Pharmaceutical Chemistry, The Oxford College of Pharmacy, Bangalore- 560068, completed course on MOLECULAR DOCKING (Course Code: MDOC 2022-23). 32 students were registered and the course was conducted for 30 hours. This course trains registrants to have a thorough knowledge about the docking theory that will be quite helpful in the further studies and research activities. The course focuses on the various theories and concepts of molecular docking, virtual screening and its practical application.

**Outcomes:** At the end of this course students were able to

- Handle various software used for molecular docking studies.
- Learn the most frequently used methods of structure-based drug design.
- Use various docking methods, which is used in drug discovery studies and to develop the desired three-dimensional structures of compounds.
- Learn about methods used to estimate a compound's biological activity by looking at how it interacts with prospective targets.

The students were satisfied and were keen to attend such programs in future.

## COURSE ON MOLECULAR DOCKING

(Course Code: MDOC 2022-23)

### COMPLETION REPORT

The Department of Pharmaceutical Chemistry, The Oxford college of Pharmacy, Bangalore, conducted a course on Molecular Docking (Course Code: MDOC 2022-23) for the academic year 2022-23. The course was intended to impart knowledge to the students about the basics of Molecular Docking to benefit them about the various virtual screening techniques, software for design novel drugs and analysis the data from experimental work. This course had given enough knowledge to understand methods of drug design, virtual analysing methods, docking and carrying out research in their future.

The course was started with a formal inaugural function by welcoming the Principal Dr. Padmaa M Paarakh. All the participants were introduced by Dr. Jyoti Shrivastava, HOD, Professor, department of pharmaceutical chemistry. All the 32 students have attended the function. The inaugural function has been summed up with the introductory lecture by Mrs Pradeepa Prasad, Course Coordinator.

A total 30 hours course had been conducted on Thursday, Friday and Saturday. Total 32 students were enrolled for the Molecular Docking course. The syllabus of the certificate course had been divided into three modules. After completion of each modules an internal assessment was conducted and an overall test was conducted after the completion of the course.

The final results of module I, II, III, and overall were analyzed. Approximately 40.6% students scored grade A (marks percentage-91-100%) in all the tests followed by 42.2% who scored grade B (marks percentage-81-90%) and 13.33 % scored grade C (marks percentage-71-80 %) and 3.9 % scored grade D (marks percentage-61-70 %). The performance of the students in the tests were found to be excellent. About Eighty one percent of the students had scored more than 90% marks in all the tests. Students had shown keen interest in attending and learning the concepts and the doubts were also clarified after the classes if any they have.

The valedictory function has been conducted on 06/10/23 and the course participation certificate were distributed to all 32 students by the Principal Dr. Padmaa M. Paarakh and Head of the Department Dr Jyoti Shrivastava. Dr. Jyoti, thanked Principal madam and management for providing best infrastructure for carrying out such courses. On behalf of department she promised to carry out such courses in future also.

The guest of the valedictory function, Dr Padmaa M Paarakh, Principal, TOCP, Bangalore had appreciated the enthusiasm of the students for this course and congratulate the Department of Pharmaceutical Chemistry and the course coordinator Mrs Pradeepa Prasad for successful completion of the course.

To be filed.

The Oxford College of Pharmacy, Bangalore introduces a 30 hours course on **Applied Bioinformatics** for the academic year 2022-23, for the benefit of M.Pharm, B. Pharm, Pharm. D and Pharm D (Post Baccalaureate) students. This course is offered at no cost. There is no academic credit offered for this course. The total duration of this course is 30 hours. The classes for the course will start from 7<sup>th</sup> Jan 2023 and will be conducted after the college hours on Friday and Saturday. The eligibility criteria include students pursuing Pharmacy degree, that is M.Pharm, B. Pharm, Pharm. D and Pharm D (Post Baccalaureate) students. Interested students can enroll with Mrs. Vishnupriya S & Mrs Pradeepa Prasad, course coordinators on or before 6<sup>th</sup> Jan 2023.

### THE OXFORD COLLEGE OF PHARMACY

The Oxford College of Pharmacy (TOCP) was established in 1992. TOCP under the aegis of Children's Education Society (R) offers D Pharm, B. Pharm, M. Pharm, Pharm. D, and Pharm. D (Post Baccalaureate) programs. TOCP is recognized by the Government of Karnataka, affiliated to Rajiv Gandhi University of Health Sciences, Karnataka, and Drug Control Board, Karnataka respectively, and Pharmacy Council of India, New Delhi. TOCP has excellent infrastructure in terms of sophisticated instruments, laboratories, lecture halls, etc.

### Course On "APPLIED BIOINFORMATICS"

Organized by

### THE OXFORD COLLEGE OF PHARMACY

Department of Pharmaceutical Chemistry,  
1st Main Rd, Hongasandra, Bengaluru,  
Karnataka 560068

Duration: 30 hours

Late date for Registration:-06/01/2023

Date of commencement:07/01/2023

Date of examination: After completion of  
30 hours classes.

### ELIGIBILITY CRITERIA

Students Pursuing Pharmacy Degree i.e.,  
M.Pharm, B. Pharm, Pharm. D and Pharm.  
D (Post-Baccalaureate)

## REGISTRATION

Registration Fees	NIL It is a free course offered by The Oxford College of Pharmacy Bangalore-68
Contact person for registration	Mrs Vishnupriya S 8523960267 Mrs Pradeepa prasad 8921969168

## STRUCTURE

- Course will be conducted for total 30 hours after the college hours.
- Course will be conducted through Offline mode.
- Every Friday and Saturday. (offline).

## COURSE DESCRIPTION

The Department of Pharmaceutical Chemistry, TOCP, Bangalore introduces a thirty hours course on Applied Bioinformatics (Course Code: APBI 2022-23). This course offers the basic knowledge about the Bioinformatics tools which can be applied in the drug development.

## OBJECTIVES OF PROGRAM

- Through Bioinformatics studies one can analyses & get the key information about the entire drug discovery and development process
- Knowing the basics of Pharmaceutical bioinformatics one can gain the research field related knowledge and also can focus on studying biological and chemical processes in the pharmaceutical area; that is understanding of how molecules interact with the human body and the drug discovery process

## FINAL ASSESSMENT

Final exams will be conducted at the end of the syllabus.

## DURATION

- Thirty hours

## OUTCOME

- This course will provides the uses of wide range of drug-related databases and software's, which can be used for various purposes, related to drug designing and development process.
- Students will learn about more methods for efficient target discovery and validation approaches
- Students will learn about predicting and understanding drug metabolism (biotransformation) including information regarding the structure-metabolism relationships.

## REGISTRATION PROCESS

- Contact your course coordinators and register.

### Syllabus

MODULES	TOPICS
MODULE - I	Introduction to bioinformatics
	Historical Overview of bioinformatics
	Objective of bioinformatics
	Broad coverage of bioinformatics
	Components of bioinformatics
	Human genome project
	Biological Databases
	Internet and Bioinformatics
	Knowledge discovery of bioinformatics
	Bioinformatics and molecular medicine
	Genomic medicine
	Medical informatics vs bioinformatics
	Bioinformatics database
	Classification of bioinformatics
Primary database secondary database	
MODULE - II	Proteins database
	Molecular modelling
	Quantum mechanics
	Ab initio method
	Density function theory
	Semi empirical molecular orbital methods
	Molecular mechanics
	Molecular mechanics and energy minimization
	Homology modelling
	Structure and prediction by homology modelling
	Steps of homology modelling
	De novo drug design; Molecular dynamics method
	Applications; Limitations of bioinformatics
	Genomic tools
3D structure prediction, visualization, and evaluation

## COURSE ON APPLIED BIOINFORMATICS

(Course Code: APBI 2022-23)

### Outcome Report

The Department of Pharmaceutical Chemistry, The Oxford College of Pharmacy, Bangalore- 560068 had completed course on APPLIED BIOINFORMATICS (Course Code: APBI 2022-23). About 30 students were registered and the course was conducted for 30 hours. This course trains registrants to have a key information throughout the drug discovery and development process. The course focuses on the various theories and concepts to understand, how molecules interact with the human body and the drug discovery process.

**Outcomes:** At the end of this course students were able to,

- Use wide range of drug-related databases and software's, which can be used for various purposes, related to drug designing and development process.
- Learn about more methods for efficient target discovery and validation approaches.
- Learn about predicting and understanding drug metabolism (biotransformation) including information regarding the structure-metabolism relationships.

The students were satisfied and were keen to attend such programs in future.

## COURSE ON APPLIED BIOINFORMATICS

(Course Code: APBI 2022-23)

### Completion Report

The Department of Pharmaceutical Chemistry, The Oxford college of Pharmacy, Bangalore, conducted a course on Applied Bioinformatics (Course Code: APBI 2022-23) for the academic year 2022-23. The course was intended to impart knowledge about the basics principles and techniques related to applied bioinformatics.

The course was started with an inaugural function by welcoming the Principal, Dr Padmaa M. Paarakh. The function was conducted at Room NO-507 and all the participants were introduced by Course Coordinators Mrs Vishnupriya S, Mrs Pradeepa Prasad. Total 30 students were present. Our Principal had emphasized on the importance of doing such courses for the betterment of their future. The inaugural function has been summed up with the introductory lecture of course coordinator Mrs Vishnupriya S.

A total 30 hours' course had been conducted after the college hours on Friday and Saturday. Total 30 students were enrolled for this course. The syllabus of the course had been divided into two modules. After the completion of each module an internal assessment was conducted and overall test was conducted after the completion of the course. The results of module I, II, and overall were analysed. Approximately 23.33 % students scored grade A (marks percentage-95-100%) in all the tests followed by 37.77 % who scored grade B (marks percentage-90-94%) and 38.88 % scored grade C (marks percentage-85-89%) and 0 % scored grade D (marks percentage-80-84 %). The performance of the students in the tests were found good. About ninety percent of the students had secured excellent grades in all the tests. Students had shown keen interest in attending and learning the concepts and the doubts were also clarified after the classes.

The valedictory function has been conducted on 13/05/2023 and the course participation certificate were distributed to all 30 students by the Principal Dr. Padmaa M.Paarakh and Head of the Department Dr Jyoti Shrivastava. Dr. Jyoti, thanked Principal madam and management for providing best infrastructure for carrying out such courses. On behalf of department she promised to carry out such courses in future also.

The guest of the valedictory function, Dr Padmaa M Paarakh, Principal, TOCO, Bangalore had appreciated the enthusiasm of the students for this course and congratulate the Department of Pharmaceutical Chemistry and the course coordinators Mrs Vishnupriya and Mrs Pradeepa Prasad for successful completion of the course.

## STRUCTURE

- Course will be conducted for total 30 hours.
- Course will be conducted through offline mode.
- Every Friday & Saturday after the college hours (Offline)

## COURSE DESCRIPTION

The Department of Pharmaceutical Chemistry, TOCP, Bangalore- 560068 introduces a 30 hours course on "Pharma Marketing" (Course Code: PM 2022-23). This course offers the basic knowledge about the Marketing & Pharmaceutical Market.

## OBJECTIVES OF PROGRAM

- This course will help the students to understand the importance of Marketing, Pharmaceutical Market, Product decision, Promotion, Emerging Concepts in Marketing.
- The course provides different concepts & skills of marketing and also helps to understand the techniques and their applications in the pharmaceutical industry.

## FINAL ASSESSMENT

Final exams will be conducted at the end of the syllabus by offline.

## DURATION

30 hours

## OUTCOME

- This course provides information about regulatory compliance, sales techniques, ethical considerations and also effective communication.
- Students will learn consumer behavior and ethical issues in pharmaceutical marketing.
- Students can understand about different concepts of marketing and technique and their application in the pharmaceutical industry

## REGISTRATION PROCESS

## SYLLABUS

S. No	Module	Topic
I	Introduction	Introduction to the program
II	Module I	Marketing and Pharmaceutical market
		General Concepts and scope of marketing
		Marketing, selling and Marketing Environment
		Industry and Competitive Analysis in strategic Management
		Consumer buying behaviour and industry buying behaviour
		Demographic and Socio-physiological characteristic of consumer
		Qualitative and Quantitative Market Research
		Analysing the market: Role of market research.
III	Module II	Product Decision and Promotion
		Product life cycle and product portfolio analysis.
		Classification of decision
		Product management in pharmaceutical industry.
		Determinants of promotion and its budget.
		Overview of personal selling, advertising.
		Online promotion techniques for OTC Products.
IV	Module III	Professional marketing channels and pricing
		Pharmaceutical marketing channels.
		Professional sales representatives.
		Duties of professional sales representative
		Pricing.
		Pricing and overview of DPCO and NPPA.
		Emerging concepts in marketing.

**COURSE ON PHARMA MARKETING**  
(Course Code: PM 2022-23)

**OUTCOME REPORT**

The Department of Pharmaceutical Chemistry, The Oxford College of Pharmacy, Bangalore- 560068, completed a Course in PHARMA MARKETING (Course Code: PM 2022-23). 23 students were registered and the course was conducted for 30 hours. This course trained registrants to understand the skills in the pharmaceutical industry's structure, regulatory frameworks, market dynamics. The course focused on enhancing the knowledge about the pharmaceutical products, their development, manufacturing, and how to effectively market them.

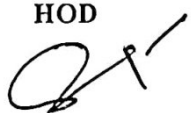

**Outcomes:**

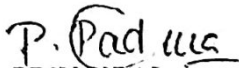

At the end of this course students were able to

- Understand the regulatory compliance, sales techniques, ethical considerations and also effective communication.
- Comprehend the consumer behaviour and ethical issues in pharmaceutical marketing, including responsible promotion and interactions with healthcare professionals.
- Understand the marketing concepts and techniques and their applications in the pharmaceutical industry.

The students were satisfied and were keen to attend such programs in future.

## COURSE ON PHARMA MARKETING (Course Code: PM 2022-23)

### COMPLETION REPORT

The Department of Pharmaceutical Chemistry, The Oxford college of Pharmacy, Bangalore, conducted a course on "PHARMA MARKETING" (Course Code: PM 2022-23) for the academic year 2022-23. This course was intended to help the students in understanding the importance of marketing, pharmaceutical market, product decision, promotion, emerging concepts in marketing. It helped the students to understand the general concepts and scope of marketing and have the understanding of the marketing field. Students learnt about analyzing consumer and industrial buying behavior. They were able to learn the different aspects of pharmaceutical marketing and studied about motivation and prescribing habits of the Physician. The course was started with an inaugural function by welcoming the Principal, Dr Padmaa M. Paarakh. The function was conducted at Room No-505 and all the participants were introduced by Course Coordinators Mrs. G. Suvarnalakshmi & Ms. Chanda Ranjan. Total 23 students were present. The inaugural function has been summed up with the introductory lecture of course coordinator Mrs. G. Suvarnalakshmi.

Total 30 hours' course had been conducted after the college hours on Friday and Saturday. Total 23 students were enrolled for this course. The syllabus of the course had been divided into three modules. After the completion of each module an internal assessment was conducted and overall test was conducted after the completion of the course. The results of module I, II, & III and overall were analysed. The students scored good grades in all the tests conducted for all the three modules. Approximately 57.60 % students scored grade A in all the tests followed by 34.78 % who scored grade B and 7.60 % scored grade C and 0.00 % scored grade D. The performance of the students in the tests were found to be excellent. About 85% of the students had secured excellent grades in all the tests. Students had shown keen interest in attending and exploring themselves through the interactive sessions conducted.

The valedictory function has been conducted on 29/04/2023 and the course participation certificate were distributed to all 23 students by the Principal Dr. Padmaa M. Paarakh and Head of the Department Dr Jyoti Shrivastava. Dr. Jyoti, thanked Principal madam and management for providing best infrastructure for carrying out such courses. On behalf of department, she promised to carry out such courses in future also.

The guest of the valedictory function, Dr Padmaa M Paarakh, Principal, TOCP, Bangalore had appreciated the enthusiasm of the students for this course and congratulate the Department of Pharmaceutical Chemistry and the course coordinators Mrs. G. Suvarnalakshmi, Dr. G. Nagalakshmi, & Mrs Chanda Ranjan for successful completion of the course.

## THE OXFORD COLLEGE OF PHARMACY

The Oxford College of Pharmacy (TOCOP) was established in 1992. TOCOP under the aegis of Children's Education Society (R) offers D Pharm, B. Pharm, M. Pharm, Pharm. D, and Pharm. D (Post Baccalaureate) programs. TOCOP is recognized by the Government of Karnataka, affiliated to Rajiv Gandhi University of Health Sciences, Karnataka, and Drug Control Board, Karnataka respectively, Pharmacy Council of India, New Delhi and NAAC. TOCOP has excellent infrastructure in terms of sophisticated instruments, laboratories, lecture halls, etc.

### ELIGIBILITY CRITERIA

Students Pursuing Pharmacy Degree i.e., M.Pharm and Pharm. D (Post-Baccalaureate)

Students from First and second year Pharm.D (Post baccalaureate), First and second year M.Pharm.

## Course On " RESEARCH & REVIEW PAPER, RESEARCH PROPOSAL WRITING SKILLS "

Organized by

## THE OXFORD COLLEGE OF PHARMACY

Department of Pharmaceutical Chemistry,  
1st Main Rd, Hongasandra, Bengaluru,  
Karnataka 560068

### Important Dates

**Duration: 30 hours**

**Last date for registration: 14 Feb 2023**

**Date of commencement: 17 Feb 2023**

**Planned Examination : After completion  
of 30 hours classes.**

## REGISTRATION

Registration Fees	NIL It is a free course offered by The Oxford College of Pharmacy Bangalore-68
Contact person for registration	Dr. G.Nagalakshmi 8220611134

## STRUCTURE

- Course will be conducted for 30 hours.
- Course will be conducted through offline.
- Every Thursday, Friday & Saturday after the college hours (Offline)

## COURSE DESCRIPTION

The Department of Pharmaceutical Chemistry, TOCOP, Bangalore- 560068 introduces a Thirty hours course on “Research & Review Paper, Research Proposal Writing Skills ” (Course Code: RRPWS 2022-23). This course offers the basic knowledge about the Research Paper Writing which can be applied in the research work publication.

## OBJECTIVES OF

### TRAINING PROGRAM

- A research paper is very important part of academic writing where one can research about any topic without any disturbances and collect the necessary information about the findings.
- This value added course will help the students in understanding the importance of research and review paper writing, and carrying out a value-added research in their future

### FINAL ASSESSMENT

Final exams will be conducted at the end of the syllabus.

### DURATION

Thirty hours

## COURSE OUTCOME

- This course provides an overview of skills required to write a good research and review paper.
- Students will learn how to analyze information sources.
- Students can develop a questioning mindset.
- Students will learn to brainstorm original ideas and avoid plagiarism.

The Oxford College of Pharmacy, Bangalore introduces a 30 hours course on **In vivo mutagenicity and teratogenicity activities** for the academic year 2022-23, for the benefit of M. Pharm, B. Pharm, Pharm D and Pharm D (Post Baccalaureate) students. This course is offered at no cost. There is no academic credit offered for this course. The total duration of this course is 30 hours. The classes for the course will start from 28<sup>th</sup> January 2023 and will be conducted every Monday and Saturday after class hours. The eligibility criteria include students pursuing Pharmacy degree that is M. Pharm, B. Pharm, Pharm D and Pharm D (Post Baccalaureate) students. Interested students can enroll with Mrs. Keserla Bhavani, course coordinator on or before 25<sup>th</sup> January 2023.

## REGISTRATION

Registration Fees	NIL It is a free course offered by The Oxford College of Pharmacy Bangalore-68
Contact person for registration	Mrs Keserla Bhavani S073108424

## STRUCTURE

- Course will be conducted for 30 hours.
- Every Saturday and Monday after the college hours.

## COURSE DESCRIPTION

The Department of Pharmacology TOCP, Bangalore- 560068 introduces a thirty hours certificate course on In vivo Mutagenicity and Teratogenicity activities (Course Code: IVMT 2022-23). This course offers the basic knowledge about the Toxicity studies which can be applied in the lab and research work.

## OBJECTIVES OF PROGRAM

- Toxicity studies Provides knowledge on the preclinical safety and toxicological evaluation of new chemical entities on foetus and genes
- This course help the students to impart knowledge on the Pharmacological screening of mutagenic and teratogenic studies.

## FINAL ASSESSMENT

Final exams will be conducted at the end of the syllabus

## DURATION

Thirty hours beginning from 28 January 2023.

## OUTCOME

At the end of this course students were able to:

- 1) Understand regulatory guidelines for conducting toxicity studies-OECD
- 2) Understand the concepts of Segment I, II and III.
- 3) Understand the guidelines for performing the reproductive toxicity and teratogenic studies.
- 4) Perform the Toxicokinetic evaluation in preclinical studies.
- 5) Explains about the in vivo and invitro tests performed for mutagenicity and Teratogenicity studies.

## REGISTRATION PROCESS

Directly contact Course Co-Ordinator and register.

(Course Code: IVMT 2022-23)

### SYLLABUS

MODULES	TOPICS
Module I	Introduction to toxicity studies
	Concepts of general toxicity studies
	Concepts of mechanistic toxicity studies
	Concepts of Regulatory toxicity studies
	Concepts of descriptive toxicity studies
	Concepts of special toxicity studies
	Regulatory guidelines for conducting toxicity studies-OECD
	Regulatory guidelines for conducting toxicity studies-ICH
	Regulatory guidelines for conducting toxicity studies-EPA
	Regulatory guidelines for conducting toxicity studies- Schedule Y
	Test item characterization-Importance and methods in regulatory toxicology studies
Module II	Reproductive Toxicological studies
	Introduction to reproductive toxicological studies
	Reproductive toxicology studies- types
	Reproductive toxicology studies-female reproductive studies (segment I)
	Teratogenicity studies (segment II)
	Reproductive toxicology studies-female reproductive studies (segment III)
	Male reproductive toxicity studies,
	Carcinogenicity studies
	Importance of toxicity studies
	Mutagenicity studies
	Special Reproductive toxicity studies
Module III	Toxicokinetics
	Introduction to Toxicokinetics
	Toxicokinetics parameters
	Toxicokinetic- saturation kinetics
	Alternative methods to animal toxicity models
	Toxicokinetic- Importance of toxicokinetic studies
	Toxicokinetic evaluation
	Alternative models to animal studies
	Advantages of alternative models to animal testing
	Applications of toxicokinetics

## COURSE ON INVIVO MUTAGENICITY AND TERATOGENECITY ACTIVITIES

(Course Code: IVMT 2022-23)

### Outcome Report

The Department of Pharmacology, The Oxford College of Pharmacy, Bangalore- 560068, completed a course on in-vivo mutagenicity and teratogenicity activities 2022-23 (Course Code: IVMT 2022-23). 20 students were registered and the course was conducted for 30 hours. This course has helped the students to understand the basic concept of in vivo mutagenicity and teratogenicity studies in the animals like mice and rats. It explains about the methods used in the study of mutagenic and teratogenic studies.

**Outcome:** At the end of this course students were able to:

- 1) Understand regulatory guidelines for conducting toxicity studies-OECD
- 2) Understand the concepts of Segment I, II and III.
- 3) Understand the guidelines for performing the reproductive toxicity and teratogenic studies.
- 4) Perform the Toxicokinetic evaluation in preclinical studies.
- 5) Explains about the in vivo and invitro tests performed for mutagenicity and Teratogenicity studies.

The students were satisfied and were keen to attend such programs in future.

## COURSE ON INVIVO MUTAGENICITY AND TERATOGENECITY ACTIVITIES

(Course Code: IVMT 2022-23)

### Completion Report

The Department of Pharmacology, The Oxford college of Pharmacy, Bangalore, conducted a course on In vivo mutagenicity and teratogenicity activities (Course Code: IVMT 2022-23) for the academic year 2022-23. The course was intended to impart knowledge to the students about the basics of Toxicity studies according to the OECD guidelines and to benefit them about the various models used for the screening of mutagenesis and teratogenesis. This course had given enough knowledge to understand types of toxicity, methods used for evaluating the toxicity studies and knowledge on toxicokinetics.

The course was started with a formal virtual inaugural function started by welcoming the chief guest Dr Ravi Kumar, Director, The Oxford Group of Institution, Bangalore, and Principal Dr. M. Padmaa Paarakh. The function was conducted offline and all the participants were introduced by Mrs Keserla Bhavani, Course Coordinator. Our Principal and Director had emphasized on the importance of doing such courses in academics as well as in future also. The inaugural function has been summed up with the introductory lecture of course coordinator Mrs Keserla Bhavani.

A total 30 hours course had been conducted after the college hours on Monday and Saturday. About 20 students were attended the course and benefited. The syllabus of the course had been divided into three modules. After the completion of each module an internal assessment was conducted and overall test was conducted after the completion of the course. After the completion of each module the tests were conducted through Microsoft Forms and the tests were assigned in the Assignment section. All the students were written the test. The final results of the tests conducted for module I, II, III, and overall are depicted in the graph below with the percent of students and the grade scored in the tests conducted during the course. Approximately 72.61 % students scored grade A (marks percentage-95-100%) in all the tests, followed by 8.86 % who scored grade B (marks percentage-90-94%) and % scored grade C 9.87 % (marks percentage-85-90 %) and 9.0 % scored grade D (marks percentage-75-84 %). The performance of the students in the tests were found to be excellent. About 81.47% of the students had scored more than 95% marks in all the tests. Students had shown keen interest in attending and learning the concepts and the doubts were also clarified after the classes if any they have.

The valedictory function has been conducted on 15/05/23 and the course participation certificates were distributed to all 20 students by the Principal Dr. Padmaa M Paarakh and Head of the Department Dr. Noopur Srivastava. Dr. Noopur thanked Principal Madam and management for providing best infrastructure for carrying out such courses. On behalf of department she promised to carry out such courses in future also.

The guest of the valedictory function, Dr Padmaa Paarakh, Principal, TOCP, Bangalore had appreciated the enthusiasm of the students in this course and also thanked the Department of Pharmacology, and the course coordinator Dr. Noopur Srivastava, Mrs. Keserla Bhavani, Dr. Venkata Karthik Kumar Reddy for successful completion of the course.

### Important Dates

Duration: 30 hours

Last date for registration: 11 Jan 2023

Date of commencement: 13 Jan 2023

Planned Examination : May 2023

## REGISTRATION

Registration Fees	NIL It is a free course offered by The Oxford College of Pharmacy Bangalore-68
Contact person for registration	Dr. G Venkata Karthik Kumar Reddy 8884183476

## STRUCTURE

- Course will be conducted for 30 hours.
- Course will be conducted through offline.
- Every Friday and Saturday after the college hours.

## COURSE DESCRIPTION

The Department of Pharmacology, TOCP, Bangalore- 560068 introduces a thirty hours certificate course on Cell free transcription - translation (Course Code: CFTXTL 2022-23). This course offers the basic knowledge about the In vivo transcription and Translations which can be applied in the lab and research work.

## OBJECTIVES OF PROGRAM

- Cell free transcription -translation is an important concept which helps to construct, characterize and interrogate genetically programmed biomolecular systems implemented outside living organisms.
- This course will help the students in understanding the purpose of transcription is to make RNA copies of individual genes that the cell can use in the biochemistry to synthesize proteins, which are used for millions of cellular functions and carrying out a value-added research in their future.

## FINAL ASSESSMENT

Final exams will be conducted at the end of the syllabus by test.

## DURATION

Thirty hours beginning from 13 February 2023.

## OUTCOME

- This course offers an unparalleled flexibility to take apart, engineer and analyze quantitatively the effects of chemical, physical and genetic contexts on the function of biochemical systems.
- The capabilities of the current cell-free platforms for executing DNA programs in vitro.
- Students will learn about the the recent advances in programming using cell-free expression, a multidisciplinary playground that has enabled a myriad of novel applications in synthetic biology, biotechnology

	Membrane Vesicles for Signal Peptide Cleavage
	Membrane Vesicles for Core Glycosylation
	Canine Pancreatic Microsomal Membranes
MODULE - III	<b>INTRODUCTION</b> : Analysis of Transcriptional/ Translational Regulation
	Structural RNA analysis
	Characterization of regulatory elements for translation (e.g., UTRs, Capping, IRES)
	RNA virus characterization
	<b>INTRODUCTION</b> : Protein Evolution/ Enzyme Engineering
	Display technologies (e.g., ribosome, mRNA display, in vitro compartmentalization)
	Evolution of antibodies in vitro by ribosome display
	<b>INTRODUCTION</b> : Proteome Analysis
Gene mutation/deletion analysis (e.g., enzyme kinetics) , Gel Shift EMSA

## COURSE ON CELL FREE TRANSCRIPTION AND TRANSLATION

(Course Code: CFTXTL 2022-23)

### Outcome Report

The Department of Pharmacology, The Oxford College of Pharmacy, Bangalore- 560068, completed course on Cell free transcription and translation (Course Code: CFTXTL 2022-23). 30 students were registered and the course was conducted for 30 hours. This course has helped the students to understand the capabilities of the current cell-free platforms for executing DNA programs in vitro and to understand the recent advances in programming using cell-free expression, a multidisciplinary playground that has enabled a myriad of novel applications in synthetic biology, biotechnology.

**Outcome:** At the end of this course students were able to:

- 1) Understand the unparalleled flexibility to take apart, engineer and analyze quantitatively the effects of chemical, physical and genetic contexts on the function of biochemical systems.
- 2) Understand the capabilities of the current cell-free platforms for executing DNA programs in vitro.
- 3) learn about the the recent advances in programming using cell-free expression, a multidisciplinary playground that has enabled a myriad of novel applications in synthetic biology, biotechnology
- 4) Understand the purpose of transcription is to make RNA copies of individual genes that the cell can use in the biochemistry to synthesize proteins, which are used for millions of cellular functions and carrying out a value-added research in their future.

The students were satisfied and were keen to attend such programs in future.

## COURSE ON CELL FREE TRANSCRIPTION AND TRANSLATION

(Course Code: CFTXTL 2022-23)

### Course completion Report

The Department of Pharmacology, The Oxford college of Pharmacy, Bangalore, conducted a course on Cell free transcription and translation (Course Code: CFTXTL 2022-23) for the academic year 2022-23. The course was intended to impart knowledge to the students about the the capabilities of the current cell-free platforms for executing DNA programs in vitro and to understand the recent advances in programming using cell-free expression, a multidisciplinary playground that has enabled a myriad of novel applications in synthetic biology, biotechnology.

The course was started with an inaugural function by welcoming the Principal Dr. Padmaa M Paarakh and Dr. Noopur Srivatsava, HOD , Department of Pharmacology . The function was conducted at Room no-507 and all the participants were introduced by Dr. G Venkata Karthik Kumar Reddy, Course Coordinator. About 30 students attended the meeting. Our Principal had emphasized on the importance of doing such courses in academics as well as in future also. The inaugural function has been summed up with the introductory lecture of course coordinator DR. G Venkata Karthik Kumar Reddy.

A 30 hours course had been conducted after the college hours on Friday and Saturday. The 30 students were enrolled directly by contacting the class coordinator. The syllabus of the course had been divided into three modules. After the completion of each module an internal assessment was conducted and overall test was conducted after the completion of the course. After the completion of each module the tests were conducted through offline in class room. The final results of the tests conducted for module I, II, III, and overall are depicted in the graph below with the percent of students and the grade scored in the tests conducted during the course. Approximately 53.33% students scored grade A (marks percentage-95-100%) in all the tests followed 30 % who scored grade B (marks percentage-90-94%) and 10% scored grade C (marks percentage-85-90 %) and 6.66% scored grade D (marks percentage-80-94 %). The performance of the students in the tests were found to be excellent. About ninety percent of the students had scored more than 95% marks in all the tests. Students had shown keen interest in attending and learning the concepts and the doubts were also clarified after the classes if any they have.

The valedictory function has been conducted on:05/05/2023 in the class room and the course completion certificates are distributed to 30 students by the Principal Dr. Padmaa M Paarakh and Head of the Department Dr. Noopur Srivastava. Dr. Noopur thanked Principal Madam and management for providing best infrastructure for carrying out such courses. On behalf of department she promised to carry out such courses in future also.

The guest of the valedictory function, Dr Padmaa Paarakh, Principal, TOCP, Bangalore had appreciated the enthusiasm of the students in this course and also thanked the Department of Pharmacology and the course coordinator Dr. G Venkata Karthik Kumar Reddy for successful completion of the course.

## COURSE ON OSTEOPHARMACOLOGY

(Course Code: OSP 2022-23)

### Notice

Date: 05-01-2023

To

Notice Board

To be read in the class rooms

Course Coordinators -Mrs. Joyce & Dr. Karthik

To be filed.

The Department of Pharmacology, The Oxford College of Pharmacy, Bangalore introduces 30 hours course on OSTEOPHARMACOLOGY for the academic year 2022-23, for the benefit of M. Pharm, B. Pharm, Pharm D and Pharm. D (Post baccalaureate) students. This course is offered at no cost. There is no academic credit offered for this course. The total duration of this course is 30 hours. The classes for the course will start from 7<sup>th</sup> Jan 2023 and will be conducted after the college hours on Friday and Saturday. The eligibility criteria include students pursuing Pharmacy degree, that is M. Pharm, B. Pharm, Pharm D and Pharm. D (Post baccalaureate) students. Interested students can enroll with, Dr. G. Venkata karthik, Mrs. Joyce course coordinators on or before 6<sup>th</sup> Jan 2023

### THE OXFORD COLLEGE OF PHARMACY

The Oxford College of Pharmacy (TOCOP) was established in 1992. TOCOP under the aegis of Children's Education Society (R) offers D Pharm, B. Pharm, M. Pharm, Pharm. D, and Pharm. D (Post Baccalaureate) programs. TOCP is recognized by the Government of Karnataka, affiliated to Rajiv Gandhi University of Health Sciences, Karnataka, and Drug Control Board, Karnataka respectively, Pharmacy Council of India, New Delhi and NAAC. TOCP has excellent infrastructure in terms of sophisticated instruments, laboratories, lecture halls, etc.

### ELIGIBILITY CRITERIA

Students Pursuing Pharmacy Degree i.e. M.Pharm and Pharm. D (Post-Baccalaureate)

### **COURSE ON OSTEOPHARMACOLOGY**

**Organized by**

**THE OXFORD COLLEGE OF  
PHARMACY**

Department of Pharmacology,  
1st Main Rd, Hongasandra, Bengaluru,  
Karnataka 560068

### **Important Dates**

**Duration: 30 hours**

**Last date for registration: 06/01/2023**

**Date of commencement: 07/01/2023**

**Planned Examination : After  
completion of 30 hours classes.**

## REGISTRATION

Registration Fees	NIL It is a free course offered by The Oxford College of Pharmacy Bangalore-68
Contact person for registration	Mrs Joyce 8884364650 Dr. G Venkata Karthik 8220611134

## STRUCTURE

- Course will be conducted for 30 hours.
- Course will be conducted through Offline mode
- Every Saturday and Friday after the college hours.

## COURSE DESCRIPTION

The Department of Pharmacology, TOCP, Bangalore- 560068 introduces a Thirty hours course on **Osteopharmacology** (Course Code: OSP 2022-23 ). This course offers the basic knowledge about osteoscience

## OBJECTIVES OF COURSE

- Understand various types of Osteocells and its morphology
- Appraise the importance of advancement in diagnosis of Osteodiseases

## FINAL ASSESSMENT

Final exams will be conducted at the end of the syllabus

## DURATION

Thirty hours

## COURSE OUTCOME

- To understand the methods and drugs used in treating bone disease
- The students will gain deep knowledge about the receptors and regulators which involved in bone formation ,
- Based on receptor structure students will able to target the site for drug designing .

## REGISTRATION PROCESS

- Contact your course coordinators and register.

## COURSE ON OSTEOPHARMACOLOGY

(Course Code: OSP 2022-23)

### Syllabus

MODULES	TOPICS
MODULE-I	Introduction
	General characters of bone tissue
	Diseases of bone
	Different types of bone diseases
	General pathogenesis of diseases
	Pathogenesis of Osteoporosis
	Pathogenesis of paget's diseases and Bone infection
	Pathogenesis of osteonecrosis
	Pathogenesis of bone tumors and osteoarthritis
	Pathogenesis of scoliosis
	Pathogenesis of low bone density and gout
	Risk factors of osteoporosis
	Non-pharmacological treatment
	Treatment for bone diseases
MODULE-II	Drugs used to treat for osteoporosis
	Pharmacological action of calcium and vitamin D on bone diseases
	Pharmacological action of bisphosphonates
	Pharmacological action of denosumab
	Pharmacological action of estrogen replacement and selective estrogen Receptor modulators.
	Pharmacological action of calcitonin
	Pharmacological action of teriparatide
	Pharmacological action of strontium Ranelate
	Pharmacological action of interleukin (IL)-1 inhibitors
	Pharmacological action of tumor necrosis factors-alpha inhibitors
	Pharmacological action of DMARD's
Pharmacological action of cathepsin-k inhibitors	
Pharmacological action of MMP/ ADAMTS inhibitors

## COURSE ON OSTEOPHARMACOLOGY

(Course Code: OSP 2022-23)

### Outcome Report

The Department of Pharmacology, The Oxford College of Pharmacy, Bangalore- 560068, completed the course on Osteopharmacology (Course Code: OSP 2022-23). 16 students were registered and the course was conducted for 30 hours. This course trained registrants to have a basic knowledge about the bone cells, bone diseases, diagnosis and treatment. The course focused on enhancing the knowledge regarding the basic concepts of mechanisms involved in treating the bone disease.

**Outcome:** At the end of this course students were able to,

- To understand the methods and drugs used in treating bone disease
- To gain deep knowledge about the receptors and regulators which involved in bone formation ,
- Based on receptor structure students will able to target the site for drug designing.

The students were satisfied and were keen to attend such programs in future.

### COURSE ON OSTEOPHARMACOLOGY

(Course Code: OSP 2022-23)

#### Completion Report

The Department of Pharmacology, The Oxford college of Pharmacy, Bangalore, conducted a course on Osteopharmacology (Course Code: OSP 2022-23) for the academic year 2022-23. This course was intended to impart knowledge about the basic concept of various bone cells morphology, functions, balancing mechanisms and various drugs used in bone diseases like osteoporosis.

The course was started with an inaugural function started by welcoming the Principal Dr Padmaa M. Paarakh. The function was conducted in Room no 501, and all the participants were welcomed by Mrs. Joyce, Course Coordinator. Total 16 students were present for the session. Our principal emphasized on the importance of doing such courses in academics as well as in future also. The inaugural function has been summed up with the introductory lecture of Dr Padma M Paarakh, Principal, The Oxford College of pharmacy.

A total 30 hours course had been conducted after the college hours on Friday and Saturday. Total 16 students were enrolled for this course. The syllabus of the course had been divided into three modules. After the completion of each module an internal assessment was conducted and overall test was conducted after the completion of the course. After the completion of each module the students were evaluated with a set of questionnaires. The results of the tests conducted for all the four modules. Approximately 61.5% students scored grade A in all the tests followed by 32.5 % who scored grade B and 5.25 % scored grade C and 0% scored grade D. The performance of the students in the tests were found to be excellent. About fifty percent of the students had secured excellent grades in all the tests. Students had shown keen interest in attending and exploring themselves through the interactive sessions conducted.

The valedictory function has been conducted 13/05/23 and the course participation certificates were distributed to all 20 students by the Principal Dr. Padmaa M Paarakh and Head of the Department Dr. Noopur Srivastava. Dr. Noopur thanked Principal Madam and management for providing best infrastructure for carrying out such courses. On behalf of department she promised to carry out such courses in future also.

### ELIGIBILITY CRITERIA

Students Pursuing Pharmacy Degree i.e.,  
M. Pharm, B. Pharm, Pharm. D and  
Pharm. D (Post-Baccalaureate)

Duration: 30 hours  
Late date for Registration:-30/06/2023  
Date of commencement:01/07/2023  
Date of examination: After completion of  
30 hours classes.

## REGISTRATION

Registration Fees	NIL It is a free course offered by The Oxford College of Pharmacy Bangalore-68
Contact person for registration	Mrs Keserla Bhavani 8073108424 Dr Muthukumar A 9976696000

## STRUCTURE

- Course will be conducted for total 30 hours after the college hours.
- Course will be conducted through Offline mode.
- Every Wednesday and Saturday. (offline).

## COURSE DESCRIPTION

The Department of Pharmacology, TOCP, Bangalore introduces a thirty hours course on Pharmacogenomics and Genomics Data Analysis (Course Code: PGGDA 2022-23). This course trains registrants to have a key information throughout the basics principles and techniques related to Pharmacogenomics and Genomics.

## OBJECTIVES OF PROGRAM

- Pharmacogenomics and genomics data analysis aim to customize treatment plans based on an individual's genetic information.
- The goal is to optimize drug therapy, reduce adverse drug reactions, enhance drug efficacy, and improve patient outcomes.
- In addition, genomics data analysis focuses on identifying potential targets for drug development to enable personalized medicine.

## FINALASSESSMENT

Final exams will be conducted at the end of the syllabus.

## DURATION

- Thirty hours.

## OUTCOME

- The course outcome of Pharmacogenomics and Genomics data analysis is to provide students with the knowledge to understand how genetic information is used to create personalized medicine.
- Students will learn about the fundamental principles of Pharmacogenomics, including Genome-wide association studies and the identification pharmacogenomic biomarkers.

## REGISTRATION PROCESS

- Contact your course coordinators and register.

## COURSE ON PHARMACOGENOMIC AND GENOMIC DATA ANALYSIS

(Course Code: PGGDA 2022-23)

### SYLLABUS

MODULES	TOPICS
Module I	Introduction of pharmacogenomics
	Introduction of genomics
	Overview of pharmacogenomics
	Overview of genomics
	Study Designs in Pharmacogenomics
	Study designs in disease genetics and Pharmacogenomics
	Linkage disequilibrium
	HapMap
	1000 Genomes & ENCODE
	Controlling for population structure in genetics
	Genetic association analysis
	Introduction and overview of GWAS
	Power calculation for GWAS
Module II	Brief PLINK installation and tutorial
	Computer hands-on training: PLINK
	Meta-analysis and rare variant analysis
	GWAS Meta-analysis QC
	Next-generation sequencing
	Application of Transcriptome and RNAseq in PGx
	Sequencing applications in Disease genetics and PGx
Module III	Introduction to Metabolomics
	Metabolomics analysis using MetaboAnalyst
	Epigenetics and pharmacogenomics
	DNA methylation analysis
	GWAS follow-up analysis
	Applications of metabolomics
	Applications of epigenetics, methylation
	microRNA in PGx
	Proteomics
Applications of Proteomics

## COURSE ON PHARMACOGENOMICS AND GENOMICS DATA ANALYSIS

(Course Code: PGGDA 2022-23)

### Completion Report

The Department of Pharmacology, The Oxford college of Pharmacy, Bangalore, conducted a course on Pharmacogenomics and Genomics Data-Analysis. (Course Code: PGGDA 2022-23) for the academic year 2022-23. The course was intended to impart knowledge about the basics, principles and techniques related to Pharmacogenomics and Genomics.

The course was started with an inaugural function by welcoming the Principal, Dr Padmaa M. Paarakh. The function was conducted at Room NO-507 and all the participants were introduced by Course Coordinators Dr Muthukumar A, Mrs Keserla Bhavani. Total 20 students were present. Our Principal had emphasized on the importance of doing such courses for the betterment of their future. The inaugural function has been summed up with the introductory lecture of course coordinator Mrs. Keserla Bhavani.

A total 30 hours course had been conducted after the college hours on Wednesday and Saturday. Total 20 students were enrolled for this course. The syllabus of the course had been divided into two modules. After the completion of each module an internal assessment was conducted and overall test was conducted after the completion of the course. The results of module I, II, and overall were analysed. Approximately 38.88 % students scored grade A (marks percentage-95-100%) in all the tests followed by 37.77 % who scored grade B (marks percentage-90-94%) and 23.35 % scored grade C (marks percentage-85-89%) and 0 % scored grade D (marks percentage-80-84 %). The performance of the students in the tests were found good. About ninety percent of the students had secured excellent grades in all the tests. Students had shown keen interest in attending and learning the concepts and the doubts were also clarified after the classes.

The valedictory function has been conducted on 21/10/2023 and the course participation certificate were distributed to all 20 students by the Principal Dr. Padmaa M. Paarakh and Head of the Department Dr Noopur Srivastava. Dr. Noopur, thanked Principal madam and management for providing best infrastructure for carrying out such courses. On behalf of department, she promised to carry out such courses in future also.

The guest of the valedictory function, Dr Padmaa M Paarakh, Principal, TOCP, Bangalore had appreciated the enthusiasm of the students for this course and congratulate the Department of Pharmaceutical Chemistry and the course coordinators Dr Muthukumar A and Mrs Keserla Bhavani for successful completion of the course.

- Course will be conducted for total 30 hours after the college hours.
- Course will be conducted through Offline mode
- Every Friday and Saturday. (offline).

### COURSE DESCRIPTION

The Department of Pharmacology, TOCOP, Bangalore- 560068 introduces a thirty hours course on **Spectroscopic Methods for the Detection of Microbial Pathogens and Diagnostics of Infectious Diseases (Course Code: SDM 2022-23)**. This course offers the basic knowledge about the knowledge of alternatives models for diagnosis of infectious disease, conduct and interpretations of results.

## OBJECTIVES OF PROGRAM

- This course will help to understand various spectroscopic methods for detection of microbial pathogen.
- Contemporary researches have indicated successful bio typing.
- This value-added course will help the students in understanding some major diagnosis of infectious disease.
- It will help in understand importance of rapid detection and upgraded tools for early diagnosis to prevent the loss of lives.

### FINAL ASSESSMENT

Final exams will be conducted at the end of the syllabus.

### DURATION

Thirty hours

## OUTCOME

- This course will introduce students to study of detection of microbial pathogen.
- Students will learn about some widely used models for diagnosis of infectious disease.
- Candidates will be able to understand upgraded tools for early diagnosis to prevent the loss of lives.

I	Module I	Introduction to infectious diseases
		Recent trend in technology of diagnosis of microbial pathogens
		Conventional Methods of diagnosis of microbial pathogen.
		Molecular Methods of diagnosis of microbial pathogen
		Introduction to Spectroscopic Methods for the Identification
		General Characterization of Microbial Pathogens
		Wavelength-Based Microbial Growth
		Spectroscopic Analysis of Microbial Growth
		Introduction to Spectroscopic Methods for the Identification by Surface-Enhanced Raman Spectroscopy (SERS)
		General Characterization of Microbial Pathogen by SERS
II	Module II	Introduction to Spectroscopic Methods for the Identification by Fourier Transform Infrared Spectroscopy (FTIR)
		General Characterization of Microbial Pathogen by FTIR
		Introduction to Spectroscopic Methods for the Identification by Electrochemical Impedance Spectroscopy (EIS)
		General Characterization of Microbial Pathogen by EIS
		Introduction to Spectroscopic Methods for the Identification by MALDI-TOF/TOF Tandem Mass Spectrometry
		General Characterization of Microbial Pathogen by MALDI-TOF/TOF
		Introduction to Spectroscopic Methods for the Identification by Near-Infrared Spectroscopy (NIRS) and Chemometrics
		General Characterization of Microbial Pathogen by NIRS
		Applications of Spectroscopy in Diagnostics
		Epidemiology
III	Module III	Diagnosis of Clinical Infectious
		Diagnosis of Vector-Borne Diseases
		Food borne Pathogen Detection
		Waterborne Pathogen Detection
		Antibiotic Resistance
		Virulence Factors
		SARS-CoV-2 Diagnosis
		Microbial Endotoxins detection
		Microbial Exotoxins detection
		Biomarker Detection

### COURSE ON SPECTROSCOPIC METHODS FOR THE DETECTION OF MICROBIAL PATHOGENS AND DIAGNOSTICS OF INFECTIOUS DISEASES

(Course Code: SDM 2022-23)

#### OUTCOME REPORT

The Department of Pharmacology, The Oxford College of Pharmacy, Bangalore- 560068, completed a Course on SPECTROSCOPIC METHODS FOR THE DETECTION OF MICROBIAL PATHOGENS AND DIAGNOSTICS OF INFECTIOUS DISEASES (Course Code: SDM 2022-23). 13 students were registered and the course was conducted for 30 hours. This course is to make students understand the spectroscopic methods for the detection of microbial pathogens and diagnostics of infectious disease. The course focused on enhancing the knowledge about the microbial pathogen and their diagnosis procedure.

#### Outcome:

At the end of this course students were able to

- Understand detection of microbial pathogen.
- Students will learn about some widely used models for diagnosis of infectious disease.
- Candidates will be able to understand upgraded tools for early diagnosis to prevent the loss of lives.

The students were satisfied and were keen to attend such programs in future.

### COURSE ON SPECTROSCOPIC METHODS FOR THE DETECTION OF MICROBIAL PATHOGENS AND DIAGNOSTICS OF INFECTIOUS DISEASES

(Course Code: SDM 2022-23)

#### COMPLETION REPORT

The Department of Pharmacology, The Oxford college of Pharmacy, Bangalore, conducted Course on Spectroscopic Methods for the Detection of Microbial Pathogens and Diagnostics of Infectious Diseases (Course Code: SDM 2022-23) for the academic year 2022-23. This course was intended to help the students in understanding the various theories and concepts of detection of infectious disease and its identification by microbial typing.

The course was started with an inaugural function started by welcoming the Principal, Dr Padmaa M. Paarakh. The function was conducted in Room no 507, and all the participants were introduced by course coordinator Mrs. Nagalakshmi R. Total 13 students were present. Our principal emphasized on the importance of doing such courses for the betterment of their future. The inaugural function has been summed up with the introductory lecture of course coordinator Mrs. Nagalakshmi R.

A total 30 hours course had been conducted after the college hours on Friday and Saturday. Total 13 students were enrolled for the course. The syllabus of the course had been divided into three modules. After the completion of each module an internal assessment was conducted and overall test was conducted after the completion of the course. The results of module I, II, III and overall was analysed. Approximately 76.9 % students scored grade A (marks percentage-95-100%) in all the tests followed by 23 % who scored grade B (marks percentage-90-94%) and 0 % scored grade C (marks percentage-85-89%) and 0 % scored grade D (marks percentage-80-84 %). The performance of the students in the tests was found to be excellent. About ninety five percent of the students had secured excellent grades in all the tests. Students had shown keen interest in attending and learning the concepts and the doubts were also clarified after the classes.

The valedictory function has been conducted on 29/04/2023 and the course participation certificate were distributed to all 13 students by the Principal Dr. Padmaa M. Paarakh and Head of the Department Dr Noopur Srivastava. Dr Noopur, thanked Principal madam and management for providing best infrastructure for carrying out such courses. On behalf of department she promised to carry out such courses in future also. The guest of the valedictory function, Dr Padmaa M Paarakh, Principal, TOCP, Bangalore had appreciated

## REGISTRATION

Registration Fees	NIL It is a free course offered by The Oxford College of Pharmacy, Bengaluru-68
Contact person for registration	Dr Sripriya C Course Coordinator

## STRUCTURE

- Course will be conducted for 30 hours
- Course will be conducted through Offline mode.
- Every Friday and Saturday. (offline).

## COURSE DESCRIPTION

The Department of Pharmacy Practice, TOCP, Bangalore- 560068 introduces a course on clinical data management (CDM 2022-23). This course provides a complete knowledge about overview of clinical data management, activities performed during clinical trials and analysis and reporting overview.

## OBJECTIVES OF THE PROGRAM

- With the rapid advancements in medical technology and an ever-increasing focus on evidence-based practice, the need for skilled Clinical Data Management professionals in this area has never been greater.
- One of the key reasons to study clinical data management is the role it plays in ensuring the accuracy and integrity of clinical trial data.
- Furthermore, studying Clinical Data Management provides a strong foundation for a career in the healthcare industry.
- Whether working in pharmaceutical companies, research institutions, or regulatory agencies, professionals with expertise in this field are in high demand.

## FINAL ASSESSMENT

Final evaluation will be conducted at the end of the syllabus

## OUTCOME

- Able to collect, validate and analyze the clinical data.
- Able to design and develop data collection instruments such as paper CRF, electronic CRF, clinical database etc.
- Able to design and develop tools for validation such as edit checks, user acceptance testing etc.
- Able to design and develop tools for analyzing data such as DDR/DDS etc

## REGISTRATION PROCESS

Students can contact Course Coordinator - Dr Sripriya C and register.

## COURSE ON CLINICAL DATA MANAGEMENT

(COURSE CODE – CDM 2022-23)

### OUTCOME REPORT

The Department of Pharmacy practice, The Oxford College of Pharmacy, Bangalore- 560068, is conducting course on CLINICAL DATA MANAGEMENT (Course Code: CDM 2022-23). This course provides a complete knowledge about the overview of clinical data management, activities performed during the clinical trials and analysis and reporting overview. The course focuses on the various theories and concepts of data management in the field of clinical research. This course gave the basic knowledge to students who wants to build a career as clinical data manager and clinical data analyst.

**Outcomes :** At the end of this course, students were able to

- Collect , validate and analyze the clinical data .
- Design and develop data collection instruments such as paper CRF, electronic CRF, clinical database etc.
- Design and develop tools for validation such as edit checks, user acceptance testing etc.
- Design and develop tools for analyzing data such as DDR/DDS etc

The students were satisfied and were keen to attend such programs in future.

**COURSE ON UNDERSTANDING CLINICAL DOCUMENTS AND SOFTWARES USED IN  
CLINICAL SETTINGS**

(COURSE CODE – UCDS 2022-23)

**OUTCOME REPORT**

The Department of Pharmacy Practice of The Oxford college of pharmacy, Bangalore 560068 is conducting a Value added Course in **Understanding Clinical Documents And Softwares Used In Clinical Settings** (Course Code – UCDS 2022-23). The importance of complete medical records in healthcare organizations has always been clear, but never more than now with the added pressure of the pandemic on the healthcare system in general. Medical documentation provides a full picture of a patient's medical history, in order for clinicians to have all the information they need to consider when treating or diagnosing a patient. If this information is incorrectly documented, illegible or unnecessarily delayed, it can cause immense risk to the patient in question. Good documentation provides patient safety and quality of care. It is extremely important that healthcare organizations put time, effort and resources into ensuring that their documentation practices meet high quality standards. The knowledge of Good documentation promotes patient safety and quality of care. This course provides registrants to have a thorough knowledge about the software used in Clinical settings that will be quite helpful in the further studies and medical coding. The course focuses on the various theories and concepts of softwares and its practical application/research work.

**Outcome:** At the end of this course, students were able to

- Learn the principles and ethics to be followed while preparing documents.
- Properly interpret medications, dosages, and instructions for medication administration.
- Correctly spell commonly prescribed medications
- Identify basic types of medical records, including work types, components, formatting, and documentation standards.

The students were satisfied and were keen to attend such programs in future.

## COURSE ON UNDERSTANDING CLINICAL DOCUMENTS AND SOFTWARES USED IN CLINICAL SETTINGS

(Course Code: UCDS 2022-23)

### COMPLETION REPORT

The Department of Pharmacy practice, The Oxford college of Pharmacy, Bangalore, conducted a course on Understanding Clinical Documents And Softwares Used In Clinical Settings (Course Code: UCDS 2022-23) for the academic year 2022-23. The course was intended to impart knowledge to the students about the management of documents and software used in clinical settings.

The course was started with an inaugural function by welcoming the Principal Dr Padmaa M Paarakh. The function was conducted at Room NO-505 and all the participants were introduced by Course Coordinators Dr Sripriya C. Total 27 students were present. The inaugural function has been summed up with the introductory lecture of course coordinator Dr Sripriya C.

A total 30 Hours course had been conducted on Wednesday, Friday and Saturday after college hour. Total 27 students were enrolled for the course

The syllabus of the course had been divided into two modules. After the completion of each modules an internal assessment was conducted, and overall test was conducted after the completion of the course.

The result for module I, II and overall were analysed. Approximately 59 % students scored grade A (marks percentage-100%) in all the tests followed by 25.2% who scored grade B (marks percentage-90%) and 14.8% scored grade C (marks percentage-80%).

The performance of the students in the tests were found excellent. About eighty nine percent of the students had secured excellent grades in all the tests. Students had shown keen interest in attending and learning the concepts and the doubts were also clarified after the classes.

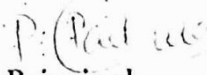

The valedictory function has been conducted on 23/09/2023 and the course participation certificate were distributed to all 27 students by the Principal Dr. Padmaa M.Paarakh and Head of the Department Dr Parthasarathy G. Dr. Parthasarathy G thanked Principal madam and management for providing best infrastructure for carrying out such courses. On behalf of department he promised to carry out such courses in future also. The guest of the valedictory function, Dr Padmaa M Paarakh, Principal, The Oxford college of Pharmacy, Bangalore had appreciated the enthusiasm of the students for this course and congratulate the Department of Pharmacy practice and the course coordinator Dr Sripriya C for successful completion of the course.

COURSE ON FIRST AID AND EMERGENCY CARE BY PHARMACIST

(COURSE CODE - FEC 2022-23)

## OUTCOME REPORT

The Department of Pharmacy Practice, The Oxford College of Pharmacy, Bangalore- 560068, completed course on First Aid And Emergency Care By Pharmacist (Course Code - FEC 2022-23). About 27 students were registered and the course was conducted for 30 hours. Students enrolled in the course learnt the aim of first aid and will be introduced to its basic concepts. And also learned some important rules of assessing casualty, its process and points that need to be remembered while doing it. Participants were introduced to commonly occurring accidents and health issues in a crisis.

**Outcome:** At the end of this course, students were able to

- Understand how and when to administer first aid.
- Provide appropriate treatment for the purpose of preserving life.
- Minimise the consequences of injury until the arrival of medical assistance.
- Provide appropriate treatment for an injury which does not require the attention of a medical practitioner
- Familiar with health & safety legislation on first aid in the workplace

The students were satisfied and were keen to attend such programs in future.

## COURSE ON FIRST AID AND EMERGENCY CARE BY PHARMACIST

(COURSE CODE – FEC 22-23)

### COMPLETION REPORT

The Department of Pharmacy practice, The Oxford college of Pharmacy, Bangalore, conducted a course on First Aid and emergency care by pharmacist for the academic year 2022-23. People rarely give first aid a thought, until the day they need it. However, with correct first aid training anyone could, in short term (until the arrival of emergency services) save a life. Students enrolled in the course learnt the aim of first aid and introduced to its basic concepts. And also learnt some important rules of assessing casualty, its process and points that need to be remembered while doing it. Participants were introduced to commonly occurring accidents and health issues in a crisis.

The course was started with an inaugural function by welcoming the Principal Dr Padmaa M. Paarakh. The function was conducted in Room no 501, and all the participants were welcomed by Dr Sripriya C, Course Coordinator. About 27 students were present for the session. The inaugural function has been summed up with the introductory lecture of Dr Parthasarathy G, HOD, Department of Pharmacy practice.

A total 30 Hours course had been conducted on Wednesday and Saturday after college hours. The total 27 students were enrolled for the course. The syllabus of the course had been divided into two modules. After the completion of each module an internal assessment was conducted and overall test was conducted after the completion of the course.

The result for module I, II and overall were analysed. The results of the tests conducted for all the two modules are as follows : Approximately 66.6 % students scored grade A in all the tests followed by 29.6 % who scored grade B and 3.7 % scored grade.C. The performance of the students in the tests were found to be excellent. About Eighty Five percent of the students had secured excellent grades in all the tests. Students had shown keen interest in attending and exploring themselves through the interactive sessions conducted.

The valedictory function has been conducted on 07/06/2023 and the course participation certificate were distributed to all 27 students by the Principal Dr. Padmaa M.Paarakh and Head of the Department Dr Parthasarathy G . Dr. Parthasarathy G thanked Principal madam and management for providing best infrastructure for carrying out such courses. On behalf of department he promised to carry out such courses in future also.

The guest of the valedictory function, Dr Padmaa M Paarakh, Principal, The Oxford college of Pharmacy, Bangalore had appreciated the enthusiasm of the students for this course and congratulate the Department of Pharmacy practice and the course coordinator Dr Sripriya C for successful completion of the course..

of 30 hour classes**

## REGISTRATION

Registration Fees	NIL It is a free course offered by The Oxford College of Pharmacy Bangalore-68
Contact person for registration	Dr Jeena Susan Saji 9074795810

## STRUCTURE

- Course will be conducted for 30 hours.
- Every Monday, Friday and Saturday after the college hours.(Offline mode).
- Course will be conducted through offline mode.

## COURSE DESCRIPTION

The Department of Pharmacy Practice, TOCP, Bangalore introduces a thirty hours course on Basic Terminologies in Pharmacovigilance (Course Code: BTP2022-23). This course offers the necessary knowledge in Basic medical terminologies used in Pharmacovigilance.

## OBJECTIVES OF PROGRAM

- To develop the skills needed to improve the patient care and safety in use of medications and to improve the public health.
- To promote understanding, education and clinical training in pharmacovigilance and its effective communication to health professionals and public.
- Focusing of rational and safe use of medications.
- Learn ways to detect the unknown adverse reactions and interactions.
- Develop skills for the assessment of benefit, harm, effectiveness and risk of medicines.

## FINAL ASSESSMENT

Final exams will be conducted at the end of the syllabus.

## DURATION

- Thirty hours.

## OUTCOME

- Students will Understand the basic terminologies and medical coding in the field of pharmacy.
- Students will acquire knowledge for finding out severe ADR which cannot be found out through clinical trials.
- This course helps to earn an opportunity to get a job in detection and reporting of ADR in the field of pharmacovigilance in various organization.

## REGISTRATION PROCESS

- Students can directly contact to the course coordinator Dr Jeena Susan Saji.

### COURSE ON BASIC TERMINOLOGIES IN PHARMACOVIGILANCE

(Course Code: BTP 2022-23)

### COMPLETION REPORT

The Department of Pharmacy Practice, The Oxford college of Pharmacy, Bangalore, conducted a course on Basic terminologies in Pharmacovigilance (Course Code: BTP2022-23) for the academic year 2022-23. The course was intended to impart knowledge to the students about the basic principles and terminologies of Pharmacovigilance.

The course was started with an inaugural function by welcoming the Principal Dr Padmaa M Paarakh. The function was conducted at Room No-506 and all the participants were introduced by Course Coordinator Dr Jeena Susan Saji. Total 24 students were present. The inaugural function has been summed up with the introductory lecture of course coordinator Dr Jeena Susan Saji.

A total 30 hours course had been conducted after college hours on Monday, Friday and Saturday. Total 24 students were enrolled for this course.

The syllabus of the course had been divided into two modules. After the completion of each module an internal assessment was conducted and overall test was conducted after the completion of the course. The final results of the tests conducted for module I, II and overall were analysed. Approximately 32.2 % students scored grade A (marks percentage-100%) in all the tests followed by 38.9 % who scored grade B (marks percentage-90%) and 28.9 % scored grade C (marks percentage-80%).

The performance of the students in the tests were found excellent. About eighty percent of the students had secured excellent grades in all the tests. Students had shown keen interest in attending and learning the concepts and the doubts were also clarified after the classes.

The valedictory function has been conducted on 25/09/2023 and the course participation certificate were distributed to all 24 students by the Principal Dr. Padmaa M. Paarakh and Head of the Department Dr Parthasarathy. Dr Parthasarathy thanked Principal, madam and management for providing best infrastructure for carrying out such courses. On behalf of department she promised to carry out such courses in future also.

The guest of the valedictory function, Dr Padmaa M Paarakh, Principal, TOCP, Bangalore had appreciated the enthusiasm of the students for this course and congratulated the Department of Pharmacy Practice and the course coordinator Dr Jeena Susan Saji for the successful completion of the course.

## COURSE ON PRESCRIPTION HANDLING, MANAGEMENT AND ANALYSIS OF PRESCRIPTION

(Course Code: PHA 2022-23)

### COMPLETION REPORT

The Department of Pharmacy practice, The Oxford college of Pharmacy, Bangalore, conducted a course on Prescription Handling, Management And Analysis Of Prescription (Course Code: PHA 2022-23) for the academic year 2022-23. The course was intended to impart knowledge to the students about the management and analysis of prescription.

The course was started with an inaugural function by welcoming the Principal Dr Padmaa M Paarakh. The function was conducted at Room NO-505 and all the participants were introduced by Course Coordinators Dr Jenisha K. Total 25 students were present. The inaugural function has been summed up with the introductory lecture of course coordinator Dr. Jenisha K.

A total 30 hours course had been conducted on Friday and Saturday after college hours. Total 25 students were enrolled for this course.

The syllabus of the certificate course had been divided into two modules. After the completion of each modules an internal assessment was conducted, and overall test was conducted after the completion of the course. The results of module I, II and overall were analysed. Approximately 24% students scored grade A (marks percentage-100%) in all the tests followed by 40% who scored grade B (marks percentage-90%) and 36% scored grade C (marks percentage-80%).

The performance of the students in the tests were found excellent. About eighty eight percent of the students had secured excellent grades in all the tests. Students had shown keen interest in attending and learning the concepts and the doubts were also clarified after the classes.

The valedictory function has been conducted on 18-08-2023 and the participation certificate distributed to all 25 students by the Principal and Head of the Department Dr Parthasarathy G, and he had thanked Principal and management for providing best infrastructure for carrying out such courses. Behalf of department he promised to carry out such courses in future also. The guest of the valedictory function, Dr Padmaa M Paarakh, Principal, had appreciated the enthusiasm of the students in this course and congratulate the Department of Pharmacy practice and the course coordinator Dr Jenisha K for the completion of course.

**COURSE ON MEDICATIONS YOU NEED TO KNOW 2022-23**

**(COURSE CODE: MNK 2022-23)**

**COURSE COMPLETION REPORT**

The Department of Pharmaceutics, The Oxford College of Pharmacy, Bangalore, conducted a course on Medications you need to know (Course Code: MNK 2022-23) for the academic year 2022-23. The course was intended to impart knowledge to the students about the basics of principles, regulations related to the Medications and its uses.

The course was started with an inaugural function by welcoming the Principal Dr Padmaa M Paarakh. The function was conducted at Room No-506 and all the participants were introduced by Course Coordinator Mrs Surinder Kaur. Total 25 students were present. The inaugural function was summed up with the introductory lecture of the course by the coordinator Mrs Surinder Kaur.

A total 30 hours course had been conducted after college hours on Saturday and Monday. Total 25 students enrolled for this course. This course focuses on medication and their role in providing Protection against chronic diseases. The present course is devoted towards a better understanding of the uses, side effects, allergies, multi medication management of medications based on their pharmaceutical and therapeutic indications.

The syllabus of the course had been divided into three modules. After the completion of each module an internal assessment was conducted and overall test was conducted after the completion of the course. The final results of module I, II, III and overall were analysed. Approximately 82% students scored grade A (marks percentage-100%) in all the tests followed by 13% who scored grade B (marks percentage-90%) and 05 % scored grade C (marks percentage-80%) and 00 % scored grade D (marks percentage-70 and below %).

The performance of the students in the tests was found to be good. About eighty percent of the students had secured excellent grades in all the tests. Students had shown keen interest in attending and learning the concepts and the doubts were also clarified after the classes.

The valedictory function was conducted on 29/04/2023 and the participation certificates were distributed to all 25 students by the Principal and Head of the Department Dr Guru Raj S Kulkarni who thanked Principal and management for providing best infrastructure for carrying out such courses. On Behalf of the department, he promised to carry out such courses in future also. The guest of the valedictory function, Dr Padmaa M Paarakh, Principal, appreciated the enthusiasm of the students in this course and thanked the Department of Pharmaceutics and the course coordinator Mrs Surinder Kaur for conducting such courses.

## COURSE ON FOOD REGULATIONS 2022-23

(COURSE CODE: CCFR2022-23)

### COMPLETION REPORT

The Department of Pharmaceutics, The Oxford College of Pharmacy, Bangalore, conducted a course on Food Regulations (Course Code: CCFR2022-23) for the academic year 2022-23. The course was intended to impart knowledge to the students about the basics of principles, regulations related to the Food regulations.

The course was started with an inaugural function by welcoming the Principal Dr Padmaa M Paarakh. The function was conducted at Room No-506 and all the participants were introduced by Course Coordinator Mrs Surinder Kaur. Total 34 students were present. The inaugural function was summed up with the introductory lecture of the course by the coordinator Mrs Surinder Kaur.

A total 30 hours course had been conducted after college hours on Saturday and Monday. Total of 34 students were enrolled for this course. This course provides registrants to have a thorough knowledge about the food regulations that will be quite helpful in the further studies and research activities avoid use of adulterants in the food manufacturing industries. The course focuses on the basic food law intended to assure consumers that foods are pure and wholesome, safe to eat, and produced under sanitary conditions. Generally, food law prohibits importation and distribution of food products that are adulterated or have labels that are false or misleading in any context.

The syllabus of the course had been divided into three modules. After the completion of each module an internal assessment was conducted and overall test was conducted after the completion of the course.

The final results of module I, II, III and overall were analysed. Approximately 71.31% students scored grade A (marks percentage-100%) in all the tests followed by 19.10% who scored grade B (marks percentage-90%) and 00 % scored grade C (marks percentage-80%) and 00 % scored grade D (marks percentage-70 and below %).

The performance of the students in the tests was found to be good. About seventy percent of the students had secured excellent grades in all the tests. Students had shown keen interest in attending and learning the concepts and the doubts were also clarified after the classes.

The valedictory function was conducted on 24/04/2023 and the participation certificates were distributed to all 34 students by the Principal and Head of the Department Dr Guru Raj S Kulkarni who thanked Principal and management for providing best infrastructure for carrying out such courses. On Behalf of the department, he promised to carry out such courses in future also. The guest of the valedictory function, Dr Padmaa M Paarakh, Principal, appreciated the enthusiasm of the students in this course and Congratulate the Department of Pharmaceutics and the course coordinator Mrs Surinder Kaur for conducting such courses.

### ELIGIBILITY CRITERIA

Students Pursuing Pharmacy Degree i.e.,  
M.Pharm.B. Pharm, Pharm. D and Pharm.  
D (Post-Baccalaureate)

**Duration: 30 hours**

**Late date for Registration:-04/08/2023**

**Date of commencement:05/08/2023**

**Date of examination: After completion of  
30 hours classes.**

## REGISTRATION

Registration Fees	NIL It is a free course offered by The Oxford College of Pharmacy Bangalore-68
Contact person for registration	Ms. Surinder Kaur Assistant Professor Department of Pharmaceutics.

## STRUCTURE

- Course will be conducted for total 30 hours after the college hours.
- Course will be conducted through Offline mode.
- Every Saturday and Monday. (offline).

## COURSE DESCRIPTION

The Department of Pharmaceutics, TOCP, Bangalore introduces a thirty hours course on Medical Devices (Course Code: CCMD 2022-23). This course offers the necessary knowledge of Medical device regulation, application of risk management to medical devices.

## OBJECTIVES OF PROGRAM

- Medical device and in vitro diagnostic (IVD), classification and types of medical devices.
- Medical device and testing, personnel involved, quality assurance, quality management system.
- Biocompatibility studies, clinical investigation, risk management, international practices.
- Manufacturing license, inspection, fees, import, export.

## FINAL ASSESSMENT

Final exams will be conducted at the end of the syllabus.

## DURATION

- Thirty hours.

## OUTCOME

- Classification of medical devices
- Labelling of medical devices and in vitro diagnostics
- Standards of medical device, quality assurance, and testing
- Regulatory requirements and biocompatibility of medical devices
- Obtaining licence to manufacture medical device.
- Handling of Medical devices.

## REGISTRATION PROCESS

- Contact your course coordinators and register.

## COURSE ON MEDICAL DEVICES 2022-23

(COURSE CODE: CCMD2022-23)

### OUTCOME REPORT

The Department of Pharmaceutics, The Oxford College of Pharmacy, Bangalore- 560068, completed course in Medical Devices 2022-23 (Course Code: CCMD2022-23) . 20 students registered and the course was conducted for 30 hours. This course gave knowledge to the registrants about the basic awareness regarding the importance of applications of Medical Devices, Regulations of Medical devices in terms of Safety, Government Regulations of Medical devices

**Outcomes:** At the end of this course students were able to understand

- Classification of medical devices
- Labelling of medical devices and in vitro diagnostics
- Standards of medical device, quality assurance, and testing
- Regulatory requirements of biocompatibility of medical devices
- Obtaining licence to manufacture a medical device.
- Handling of Medical devices

The students were satisfied and were keen to attend such programs in future.

## COURSE ON MEDICAL DEVICES 2022-23

(COURSE CODE: CCMD2022-23)

### COMPLETION REPORT

The Department of Pharmaceutics, The Oxford College of Pharmacy, Bangalore, conducted a course on Medical Devices (Course Code: CCMD 2022-23) for the academic year 2022-23. The course was intended to impart knowledge to the students about the basics of principles and techniques related the manufacture of Medical Devices, their applications, and regulations.

The course was started with an inaugural function by welcoming the Principal Dr Padmaa M Paarakh. The function was conducted at Room No-506 and all the participants were introduced by Course Coordinator Mrs Surinder Kaur. Total 20 students were present. The inaugural function was summed up with the introductory lecture of course by the course coordinator Mrs Surinder Kaur.

A total 30 hours course had been conducted after college hours on Saturday and Monday. Total of 20 students enrolled for this course. The syllabus of the course had been divided into three modules. After the completion of each module an internal assessment was conducted and overall test was conducted.

The final results of module I, II, III and overall was analysed. Approximately 82.5% students scored grade A (marks percentage-100%) in all the tests followed by 17.5% scored grade B (marks percentage-90%) and 00% scored grade C (marks percentage-80%) and 00% scored grade D (marks percentage-70 and below %).

The performance of the students in the tests was found to be excellent. About eighty two percent of the students had secured excellent grades in all the tests. Students had shown keen interest in attending and learning the concepts and the doubts were also clarified after the classes.

The valedictory function has been conducted on 21/10/2023 and the participation certificates were distributed to all 20 students by the Principal and Head of the Department Dr Guru Raj S Kulkarni who thanked Principal and management for providing best infrastructure for carrying out such courses. On behalf of the department, he promised to carry out such courses in future also. The guest of the valedictory function, Dr Padmaa M Paarakh, Principal, appreciated the enthusiasm of the students in this course and thanked the Department of Pharmaceutics and the course coordinator Mrs Surinder Kaur for the efforts in conducting the courses.

## COURSE DESCRIPTION

The Department of Pharmaceutics, TOCP, Bengaluru introduces thirty hours course on "Polymers and its significance in Novel Drug Delivery System" (Course Code: PNDDS 2022-23). The course focuses on the various polymers and its significance in the development of different Novel Drug Delivery System as advancement of drug delivery technology.

## OBJECTIVES OF THE PROGRAM

- The course aims to create a basic awareness about the significance of different polymers used in the development of Novel Drug Delivery System.
- To impart knowledge regarding the basic concept & principle behind the selection of different polymers used in development of Novel Drug Delivery System.

## REGISTRATION PROCESS

Contact your course coordinators and register.

## FINAL ASSESSMENT

Final exams will be conducted at the end of the syllabus.

## DURATION

Thirty hours

## OUTCOME

- Appreciate and comprehend significance of different polymers.
- Understand the principle behind the selection of polymers alone or in combination for the development of different novel drug delivery system for improving the efficacy of drugs.
- Appreciate the formulation of various Novel Drug Delivery System using polymers and its effect in improving & controlling the delivery of medications.

## STRUCTURE

- Course will be conducted for total 30 hours after the college hours.
- Course will be conducted through Offline mode.
- Every Wednesday and Saturday (offline).

## COURSE ON POLYMERS AND ITS SIGNIFICANCE IN NOVEL DRUG DELIVERY SYSTEM

(Course Code: PNDDS 2022-23)

### Syllabus

MODULE	CHAPTER	TOPIC
Introduction	Introduction to the Program	
Module 1	Polymers:	Introduction, characteristics of an ideal polymer, criteria followed in polymer selection, polymer properties
		Classification
		Application of polymers in Novel drug delivery system
	Controlled drug Delivery system	Introduction, Rationale of controlled drug delivery, selection of drug candidate, approaches to design formulations, factors influencing the formulation of Controlled drug Delivery system
		Diffusion & Dissolution controlled approach of formulation
	Mucosal Drug Delivery System	Introduction, Advantages & disadvantages of mucosal drug delivery system, mechanism of bio-adhesion, theory of bio-adhesion, formulation consideration of buccal drug delivery system
Mucoadhesive polymers & significance in formulation, classification and examples		
Gastro-retentive Drug Delivery System	Introduction, advantages, disadvantages & application of Gastro-retentive Drug Delivery System	
	Approaches of Gastro-retentive Drug Delivery System	
Module 2	Transdermal drug Delivery system	Introduction, Factors affecting Transdermal drug delivery system, Basic components of Transdermal drug Delivery system
		Formulation approaches Transdermal drug Delivery system

## COURSE ON POLYMERS AND ITS SIGNIFICANCE IN NOVEL DRUG DELIVERY SYSTEM

(Course Code: PNDDS 2022-23)

### OUTCOME REPORT

The Department of Pharmaceutics, The Oxford College of Pharmacy, Bangalore- 560068, completed Course on Polymers and its significance in Novel Drug Delivery System (Course Code: PNDDS 2022-23). 19 students were registered and the course was conducted for 30 hours. This course trained registrants to have a basic awareness about the importance of different polymers used in the development of Novel Drug Delivery System. The course focused on enhancing the knowledge regarding the basic concepts and principle behind the selection of different polymers used in development of Novel Drug Delivery System.

#### Outcome:

At the end of this course students were able to

- Appreciate and comprehend significance of different polymers.
- Understand the principle behind the selection of polymers alone or in combination for the development of different novel drug delivery system for improving the efficacy of drugs.
- Appreciate the formulation of various Novel Drug Delivery System using polymers and its effect in improving & controlling the delivery of medications.

The students were satisfied and were keen to attend such programs in future.

## COURSE ON POLYMERS AND ITS SIGNIFICANCE IN NOVEL DRUG DELIVERY SYSTEM

(Course Code: PNDDS 2022-23)

### COMPLETION REPORT

The Department of Pharmaceutics, The Oxford College of Pharmacy, Bangalore, conducted a course on "Polymers and its significance in Novel Drug Delivery System" (Course Code: PNDDS 2022-23) for the academic year 2022-23. The course was intended to impart knowledge about the importance of different polymers used in the development of Novel Drug Delivery System. They will also be able to learn the basic concepts and principle behind the selection of different polymers used in development of Novel Drug Delivery System.

The course was started with an inaugural function started by welcoming the Principal Dr Padmaa M. Paarakh. The function was conducted in Room no 507, and all the participants were introduced by Course coordinator Mrs. Divya S Kumar, Course Coordinator. Total 19 students were present. Our Principal had emphasized on the importance of doing such courses for the betterment of their future. The inaugural function has been summed up with the introductory lecture by Dr Gururaj S Kulkarni.

A total of thirty hours course had been conducted after the college hours on Wednesday & Saturday. Total 19 students were enrolled for this course. The syllabus of the course had been divided into two modules. After the completion of each module an internal assessment was conducted and overall test was conducted after the completion of the course. The results of module I, II and overall were analyzed. Approximately 64.9 % students scored grade A (marks percentage-95-100%) in all the tests followed by 24.55 % who scored grade B (marks percentage-90-94 %) and 10.52 % scored grade C (marks percentage-85-89%) and 0% scored grade D (marks percentage-80-84 %). The performance of the students in the tests were found good. About eighty percent of the students had secured excellent grades in all the tests. Students had shown keen interest in attending and exploring themselves through the interactive sessions conducted.

The valedictory function has been conducted on 19/09/2023 and course participation certificate were distributed to all 19 students by the Principal Dr Padmaa M Paarakh and Head of the Department Dr Gururaj S Kulkarni. Dr. Gururaj S Kulkarni, thanked Principal and management for providing best infrastructure for carrying out such courses. On behalf of department, he promised to carry out such courses in future also.

The guest of the valedictory function, Dr Padmaa M Paarakh, Principal, TOCP, Bangalore had appreciated the enthusiasm of the students for this course and congratulate the Department of Pharmaceutics and the course coordinator Mrs. Divya S Kumar for successful completion of the course.

### THE OXFORD COLLEGE OF PHARMACY

The Oxford College of Pharmacy (TOCP) was established in 1992. TOCP under the aegis of Children's Education Society (R) offers D. Pharm, B. Pharm, M. Pharm, Pharm. D, and Pharm. D (Post Baccalaureate) programs. TOCP is recognized by the Government of Karnataka, affiliated to Rajiv Gandhi University of Health Sciences, Karnataka, and Drug Control Board, Karnataka respectively, and Pharmacy Council of India, New Delhi. TOCP has excellent infrastructure in terms of sophisticated instruments, laboratories, lecture halls, etc.

### ELIGIBILITY CRITERIA

Students Pursuing Pharmacy Degree i.e., M.Pharm, B. Pharm, Pharm. D and Pharm. D (Post-Baccalaureate)

### Course On "KNOWLEDGE ENRICHMENT ON UNIT PROCESSING OF TABLETS"

### Organized by THE OXFORD COLLEGE OF PHARMACY

Department of Pharmaceutics,  
1st Main Rd., Hongasandra, Bengaluru,  
Karnataka -560 068

Duration: 30 hours

Last date for registration:

6<sup>th</sup> April 2023

Date of commencement:

8<sup>th</sup> April 2023

Final Evaluation : After completion of 30 hrs.

## REGISTRATION

Registration Fees	NIL It is a free course offered by The Oxford College of Pharmacy, Bengaluru-68
Contact person for registration	Mrs. Divya S Kumar, 9483958121

## OBJECTIVES OF THE PROGRAM

- The course aims to create a basic awareness about the significance of different unit operations used in the manufacturing of tablets.
- To enhance the knowledge regarding the basic concept & principle behind the unit operations which will in turn help them to understand the formulation process of tablet dosage form .

## OUTCOME

- Appreciate and comprehend significance of excipients selection in quality of dosage form.
- Understand the processes involved in pharmaceutical manufacturing process of tablets.
- Appreciate various unit operations used in pharmaceutical industries for manufacturing of solid dosage form.

## COURSE DESCRIPTION

The Department of Pharmaceutics, TOCP, Bengaluru introduces a thirty hours course on “Knowledge Enrichment on Unit Processing of Tablets” (Course Code: UPT 2022-23). This course focuses on the various unit operational concepts with basic awareness about its significance in the manufacturing of tablets.

## DURATION

Thirty hours

## REGISTRATION PROCESS

Contact your course coordinator and register.

## STRUCTURE

- Course will be conducted for total 30 hours after the college hours.
- Course will be conducted through Offline mode.
- Every Thursday and Saturday. (offline).

## FINAL ASSESSMENT

Final exams will be conducted at the end of the syllabus.

## COURSE ON KNOWLEDGE ENRICHMENT ON UNIT PROCESSING OF TABLETS

(Course Code: UPT 2022-23)

### Syllabus

MODULE	CHAPTER	TOPIC
Introduction	Introduction to the Program	
Module 1	Introduction to Tablet Manufacturing Processing:	Introduction to solid dosage form-tablets, Granulation Techniques, Types of Tablets, Selection of Excipients
		Materials for construction of Equipment
	Size Reduction:	Objectives, Mechanisms & Laws governing size reduction, factors affecting size reduction.
		Principles, construction, working, uses, merits and demerits of Hammer mill, ball mill, fluid energy mill.
	Size Separation:	Objectives, applications & mechanism of size separation, official standards of powders, sieves,
		Size separation principles, construction, working, uses, merits and demerits of Sieve shaker, cyclone separator, Air separator, Bag filter
Practical & Demonstration 1:	To reduce the size of given sample using ball mill and to determine its efficiency	
	To determine the particle size determination of given sample	
Module 2	Mixing:	Objectives, applications & factors affecting mixing, Theory of mixing, solid-solid, solid-liquid, liquid-liquid mixing
		Principles, Construction, Working, uses, Merits and Demerits of V-cone blender, Double cone blender, twin shell blender, ribbon blender,
		Sigma blade mixer, planetary mixers, zig-zag mixers
	Drying:	Objectives, applications & mechanism of drying process, factors affecting drying, classification & types of dryers,

		Measurements & applications of Equilibrium Moisture content, rate of drying curve.
		Principles, construction, working, uses, merits and demerits of Tray dryer, drum dryer, vacuum dryer
	<b>Coating:</b>	Types of coating, coating materials, formulation of coating composition,
		Methods of coating and defects in coating.
		Equipment employed
	<b>Practical &amp; Demonstration 2:</b>	To construct the rate of drying curve & percentage loss on drying
		To determine the mixing efficiency of the propeller in different positions
		To demonstrate the coating of tablets
