INTERACTIVE SESSION ON

"Unlocking Your Future: Expert Insights and Career Success in Clinical Research"

About Interactive Session:

This Interactive Session Provide an overview of what clinical research entails, its importance in healthcare, and the various stages of clinical trials and Explore the different roles available in clinical research (e.g. clinical research coordinator, clinical research associate, data manager, regulatory affairs specialist) and the typical career progression within the field.

Speakers:

Dr. Anuradha
Senior Lecturer, Pharmacy
Principal, Bangalore Post U.S.

Dr. Prashant
Senior Lecturer, Pharmacy
Coordinator, Bangalore Post U.S.

26th July, 2024

11:00 AM to 12:00 PM

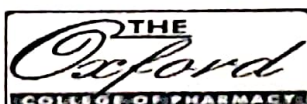

Oxford College of Pharmacy, Bengaluru

Advantages of the Interactive Session:

- ✓ Participants gain valuable insights into the field of clinical research, including its importance in healthcare, the various roles available, and the educational pathways to enter the field.
- ✓ The session provides knowledge on latest trends, innovations, technology and regulatory guideline updates.
- ✓ Sessions typically include Q&A segments where participants can ask specific questions related to their career goals, challenges they face, or seek advice from experienced professionals.
- ✓ Hearing success stories and practical advice from seasoned professionals can inspire participants and provide motivation to pursue their career aspirations in clinical research.
- ✓ Students can gain knowledge on interview help tips, importance of soft skills and essentials of written communication and networking skills.

PREAMBLE

Community pharmacy refers to pharmacy that operates in the local community, providing a range of pharmaceutical services directly to the public. It typically involves the dispensing of prescription medications, over-the-counter drugs, health consultations, and advice on the proper use of medications. In addition to these, community pharmacies often offer services like health screenings, vaccinations, and chronic disease management support. Pharmacists in community pharmacies play a key role in patient education, helping individuals manage their health, and ensuring safe and effective use of medications.

THE CONTENT OF THE SESSION

On 9th March 2024, The Department of Pharmacy Practice conducted a seminar on “scope of community pharmacy outlets in rural India” for the teaching faculties and students. There were totally 80 participants. Dr. Raghavendra S Hedge, Professor, Hanagal Shri Kumareshwar college of Pharmacy delivered the lecture

Dr. Jeena Susan Saji, organizing Secretary welcomed guests and participants to the seminar. Dr. Raghavendra, who was the seminar speaker, spoke in depth about the scope of Community pharmacy outlets and their pivotal role in rural India. These outlets offer a wide range of healthcare services, from dispensing medications to providing health advice and acting as a bridge between rural communities and larger healthcare systems. The scope of community pharmacy outlets in rural India, highlighting their significance in promoting accessible and affordable healthcare.

Community pharmacy outlets stock a diverse range of essential medicines, ensuring that rural residents have access to necessary medications for common ailments. These outlets often promote generic alternatives, offering affordable options for patients, especially those with limited financial resources.

In rural areas with limited access to emergency healthcare, community pharmacies can provide essential supplies during emergencies, such as first aid kits and basic medical equipments. Pharmacists in rural areas can play a crucial role in promoting health awareness among the local population. They can provide information on disease prevention, healthy lifestyle practices, and proper medication usage. Pharmacists can offer personalized counseling to patients, ensuring that they understand their prescriptions, potential side effects, and proper administration. Community pharmacies can conduct

basic health screenings, such as blood pressure and blood sugar checks, identifying potential health issues early.

Rural areas often face challenges in terms of infrastructure, including poor roads, lack of electricity, and limited access to healthcare facilities. There may be a shortage of qualified pharmacists and healthcare professionals in rural areas. Strengthening the regulatory framework for community pharmacy outlets can ensure consistent standards of practice and patient safety. Government initiatives can provide incentives and support to community pharmacy outlets, encouraging them to expand their services and reach underserved populations.

.Finally,Dr.Jeena Susan Saji delivered the vote of thanks and she thanked Dr.Padmaa M Paarakh, Principal, The Oxford College of Pharmacy, Bangalore for giving an opportunity to organize this seminar.

PREAMBLE

"Navigating the Transition: Essential Skills for Industry Readiness" explores the critical competencies needed to thrive in the workforce. The program emphasized on adaptability, communication, and technical proficiency, equipping individuals with the tools to successfully navigate their career paths and meet the demands of a dynamic job market. The program covered the skills that empower the next generation of professionals to excel and innovate in their chosen fields.

THE CONTENT OF THE SESSION

On 03/05/2024, at room number 507, The Oxford College of Pharmacy organized a capacity building program on "Navigating The Transition: Essential Skills For Industry Readiness" our guest speaker Mr. Rishav Kumar Jain explored the key competencies needed to successfully move from academic environments to professional settings. The discussion covered vital topics such as effective communication, teamwork, problem-solving, and adaptability in the face of change. 107 Attendees from B Pharm and M Pharm engaged in the interactive activities designed to enhance their technical skills and gained insights into industry expectations. Additionally, the session highlighted the importance of networking and lifelong learning, equipping individuals with practical strategies to build their confidence and readiness for a successful career in a competitive job market. Ms. Adithi the organizer, concluded the event with a vote of thanks, expressing gratitude to Chairman Dr. S.N.V. L. Narasimha Raju, The Oxford Group of Institutions, and Dr. Padmaa M Paarakh, Principal, for their encouragement and support.

PREAMBLE

Entrepreneurship is the process of identifying and exploiting opportunities to create value, which can be commercial, social, cultural, or institutional. It can involve creating new products or services, or improving existing ones. Entrepreneurship can be done by individuals or groups, and can take place in new or existing businesses.

CONTENT OF THE SEMINAR

Entrepreneurship is when an individual who has an idea act on that idea, usually to disrupt the current market with a new product or service. Entrepreneurship usually starts as a small business but the long-term vision is much greater, to seek high profits and capture market share with an innovative new idea. The program commenced with a warm welcome addressed from Ms. Chaithra. K, organising secretary, setting the stage for a productive and engaging event, Dr. Padmaa M Paarakh, Principal of The Oxford College of Pharmacy, delivered the inaugural address, articulated the program's significance and outlined its objectives. The seminar attracted diverse audiences, including 3 staff and 50 students. Who showed a keen interest and actively participated in through – provoking discussions with speaker, making their presence and contributions invaluable. Active participation and engagement are integral to the success of this seminar

Objectives of Seminar was to create awareness about Entrepreneurship & Entrepreneur, to guide students in respect of functions characters and Opportunities as Entrepreneur. Navigating the start-up journey, Strategies for success, to encourage the creativity of the new ideas for new startups.

No. of Participants: 53

Schedule:

Time Schedule	Programme
3:00 to 3:45 PM	Presentation by Speaker (Pavithra Devi. R Asst. Professor) on ENTREPRENEURSHIP

PREAMBLE

The Department of Pharmaceutics organized a seminar on "**Importance of Financial Management in Development of entrepreneurship**". Financial management plays a vital role in the growth of entrepreneurship by offering the necessary framework for organizing, planning, directing and controlling financial activities within a business. The current seminar was aimed to bring awareness about key aspects of financial management to our under-graduate and post-graduate students. The seminar was conducted at Room. No 507, 5th floor.

No. of participants: 55

Schedule

Time schedule	Programme
11.15-11.30	Welcome address and Introduction
11.30-12.30	Seminar talk
12.30-12.45	Interactive session
12.45-1.00	Vote of thanks

THE CONTENT DELIVERED IN THE SEMINAR IS AS FOLLOWS:

The seminar was initiated with a welcome note by Dr. Vikram. T, Assistant Professor. The resource person Mr. Manjunath. M.J, Portfolio Manager, Wealth Broking delivered the seminar talk. He stressed on following key points highlighting the importance of financial management in the development of entrepreneurship.

Capital allocation- Entrepreneurs can more efficiently allocate funds to various business activities. It helps to determine the best debt to equity ratio to finance various operations, expansions and innovations.

Risk management- Financial risks viz., market volatility, interest rate swings and credit risks etc., can be identified and managed with the aid of effective financial management. Thus, entrepreneurs are able to reduce these risks and ensure long-term run of businesses by making wise judgements.

Budgeting and planning: With the aid of effective financial management, the entrepreneurs can set financial goals, predict cash flows, and create realistic budgets. Planning is essential to monitor progress and identify variations to achieve business objectives.

Profitability and growth: By examining financial accounts and performance measures, entrepreneurs can assess the profitability of the business ventures and accordingly can take well-informed decisions to drive growth.

Investment decisions: Investments in technology, infrastructure or human resources all must be considered by entrepreneurs.

Management of cash flow: Maintaining adequate cash flow is vital for seamless running of a business. With the aid of financial management, entrepreneurs can monitor cash inflows and outflows, managing working capital and adequate liquidity to meet immediate demands.

Finally, Mrs. Divya S Kumar delivered the vote of thanks, expressing gratitude to our patron Dr. S.N.V.L Narasimha Raju, Chairman, The Oxford Educational Institutions and Dr. Padmaa M Paarakh, Principal, The Oxford College of Pharmacy. She also thanked the participants for their active involvement in organizing and participation in the seminar.

PREAMBLE

The pharmaceutical sector plays a pivotal role in shaping public health outcomes, and it is one of the most regulated, yet innovative industries in the world. The way pharmaceutical companies engage with healthcare professionals, patients, and stakeholders has undergone significant transformation in recent years. The landscape of marketing in pharma is being reshaped by a variety of factors, including advancements in digital technologies, shifting regulatory environments, increased competition, and the growing demand for transparency and ethical practices.

CONTENT OF THE SESSION

The Department of Pharmaceutical Chemistry organized a guest lecture on the "Current Scenario of Marketing in the Pharma Field". The session was aimed at enlightening students and faculty on the dynamic and evolving landscape of marketing within the pharmaceutical industry. Mr Akshay introduced the speaker for the day, Mr. Pradeep. Mr. Pradeep began by tracing the historical development of pharmaceutical marketing, discussing how it has evolved from traditional sales approaches (such as face-to-face interactions with healthcare professionals) to more modern strategies driven by digital tools and online platforms. The use of Artificial Intelligence (AI) and Machine Learning (ML) for predictive analytics and customer behaviour modelling was discussed as a key trend in pharmaceutical marketing. These technologies help companies tailor their marketing strategies to better meet consumer needs and preferences. Mr. Pradeep shared several effective strategies for pharma marketing, emphasizing the need for collaborative relationships between pharmaceutical companies, healthcare providers, and patients. Effective communication and building trust are essential for long-term success. Mr Akshay, the organizer, concluded the event with a vote of thanks, expressing gratitude to Chairman Dr S.N.V.L Narasimha Raju, The Oxford Group of institutions, and Dr Padma M. Paarakh, Principal, for their encouragement and support.

OUTCOME

The outcome of today's seminar was resoundingly positive, with the active participation of 70 students which highlighted the critical importance of ideas to disrupt the current market with a new product or service. The students were benefitted with the ideology to start as a small business but the long-term vision is much greater to seek high profits and capture market share with an innovative new idea. Overall it was an interactive session where all the students actively participated in the session.

PREAMBLE

In today's globalized world, pharmaceutical professionals have numerous career opportunities that span across countries and industries. Understanding the scope and preparation required to pursue such global career paths is crucial for aspiring graduates. The Department of Pharmaceutical Chemistry at [Institution Name] organized a guest lecture on "Global Career Opportunities" to provide students with insights into international prospects, the skills needed for success, and the strategies for achieving a global career.

The lecture was delivered by Mr. Sony Akkar, Founder of Easylink Academy, Trissur, Kerala, on March 29th, 2024. A total of 63 students from the final-year B. Pharm and M. Pharm programs attended the session. Mr. Akkar, with his vast experience in guiding students toward global career options, shared invaluable knowledge about the various pathways students can explore to establish themselves in the international pharmaceutical arena.

THE CONTENT DELIVERED IN THE GUEST LECTURE IS AS FOLLOWS:

The lecture commenced with an introduction to the global pharmaceutical landscape, highlighting the various opportunities available for graduates, ranging from research and development to regulatory affairs, quality control, and academia. Mr. Akkar emphasized that globalization has broadened the scope for pharmacy professionals, allowing them to explore diverse roles in multinational companies, international healthcare organizations, and academia.

Key topics covered during the session included: International Job Markets: Mr. Akkar provided a detailed overview of the countries with the highest demand for pharmaceutical professionals, such as the United States, the United Kingdom, Canada, Germany, and Australia. He discussed the key skills required to succeed in these markets, including technical expertise, cultural adaptability, and strong communication skills.

Educational Requirements and Certifications: The speaker explained the importance of pursuing additional certifications, such as the Foreign Pharmacy Graduate Equivalency Examination (FPGEE), Pharmacy College Admission Test (PCAT), and language proficiency exams like IELTS or TOEFL, to meet the requirements of various international markets.

Career Pathways: Mr. Akkar outlined different career pathways for pharmacists, including roles in clinical research, regulatory affairs, quality assurance, healthcare consultancy, and entrepreneurship. He also shared insights on how to build a professional portfolio that appeals to international employers.

Networking and Job Search Strategies: The session emphasized the importance of building a strong professional network, utilizing platforms like LinkedIn, and participating in global pharmacy conferences and workshops. Mr. Akkar provided practical tips on job search strategies, resume building, and preparing for interviews in a global context.

Challenges and Success Strategies: Mr. Akkar discussed some of the challenges students may face when seeking global opportunities, such as visa regulations, job market competition, and cultural differences. He

OUTCOME

The guest lecture on "Global Career Opportunities" provided the 63 students in attendance with a comprehensive understanding of the international pharmaceutical job market and the skills necessary to succeed. Students gained valuable insights into the certifications and qualifications required for global roles, as well as practical strategies for job searching and networking.

By the end of the session, students were equipped with a roadmap for pursuing careers beyond borders and felt more confident about exploring international opportunities. Many expressed their enthusiasm for pursuing global career paths and appreciated the guidance provided by Mr. Akkar. The lecture inspired students to expand their horizons, prepare strategically for global opportunities, and make informed decisions about their career paths in the pharmaceutical field.

PREAMBLE

The clinical research industry is growing rapidly, offering exciting opportunities for students ready to step into the world of healthcare innovation. This seminar, organized by The Oxford College of Pharmacy in partnership with Learning Labb Research Institute (LLRI), is designed to help students explore the latest trends and career paths in this ever-evolving field.

Led by Dr. Sharmistha, an experienced industry expert, and E. Harish Krishna, Recruitment Head, the session will provide insights into cutting-edge technologies, job prospects, and specialized training opportunities.

This interactive seminar is tailored to guide B.Pharm and M.Pharm students on how to build successful careers in clinical research, offering practical advice and real-world examples. Students will leave with a clearer understanding of what the industry demands and how they can thrive in it.

THE CONTENT DELIVERED IN THE GUEST LECTURE IS AS FOLLOWS:

The Department of Pharmaceutical Chemistry at The Oxford College of Pharmacy organized a seminar on September 17th, 2024, titled "Trending Opportunities in the Clinical Research Industry". The session, attended by 103 students from the B.Pharm and M.Pharm programs, was delivered by Dr. Sharmistha, Industry Expert and Technical Training Head at Learning Labb Research Institute.

Dr. Sharmistha highlighted the significant growth and evolving trends in the clinical research industry, emphasizing how technological advancements, like remote monitoring and real-world data collection, are reshaping clinical trials. She explored various career opportunities within the industry, including roles in clinical trial coordination, data management, and regulatory affairs, underscoring the demand for skilled professionals.

The session also provided students with insights into internship and placement opportunities available within the industry, offering guidance on how to build a successful career. Dr. Sharmistha concluded with practical advice on the skills needed to excel, such as project management and a thorough understanding of regulatory guidelines.

The interactive session was well-received, providing participants with valuable knowledge to navigate their future careers in clinical research.

OUTCOME

The seminar on "Trending Opportunities in the Clinical Research Industry" proved to be highly beneficial for the 90 B.Pharm and M.Pharm students who participated. The session provided a comprehensive overview of the current landscape and future prospects within the clinical research industry.

As a result of Dr. Sharmistha's engaging and informative presentation, students gained valuable insights into the various career paths available, such as clinical trial coordination, data management, and regulatory affairs. The discussion on evolving industry trends, including digital health technologies and remote monitoring, gave students a clear understanding of the skills required to stay competitive in this fast-paced field.

Moreover, students expressed enthusiasm about the internship and placement opportunities discussed during the session, and many left with a renewed interest in pursuing specialized roles within clinical research. The seminar effectively broadened students' perspectives, helping them feel more confident and prepared to explore career opportunities in the clinical research industry.

PREAMBLE

On 7th July 2024, The Department of Pharmaceutical Chemistry at The Oxford College of Pharmacy held a career counselling seminar on "Developing a Winning Business Idea" Mrs. D Chitra delivered the lecture to 96 participants including final-year B. Pharm students and staff. workshop aimed at helping aspiring entrepreneurs create and refine their business ideas. the event featured an inspiring keynote address, interactive sessions on idea generation and market research, and a discussion on common entrepreneurial challenges. The lecture concluded at 1:00 PM, and the attending students found Mrs. D Chitra informative and engaging presentation to be valuable. The Department of Pharmaceutical Chemistry was pleased to have hosted such an insightful event, which undoubtedly provided students with a better understanding of the business career opportunities.

CONTENT

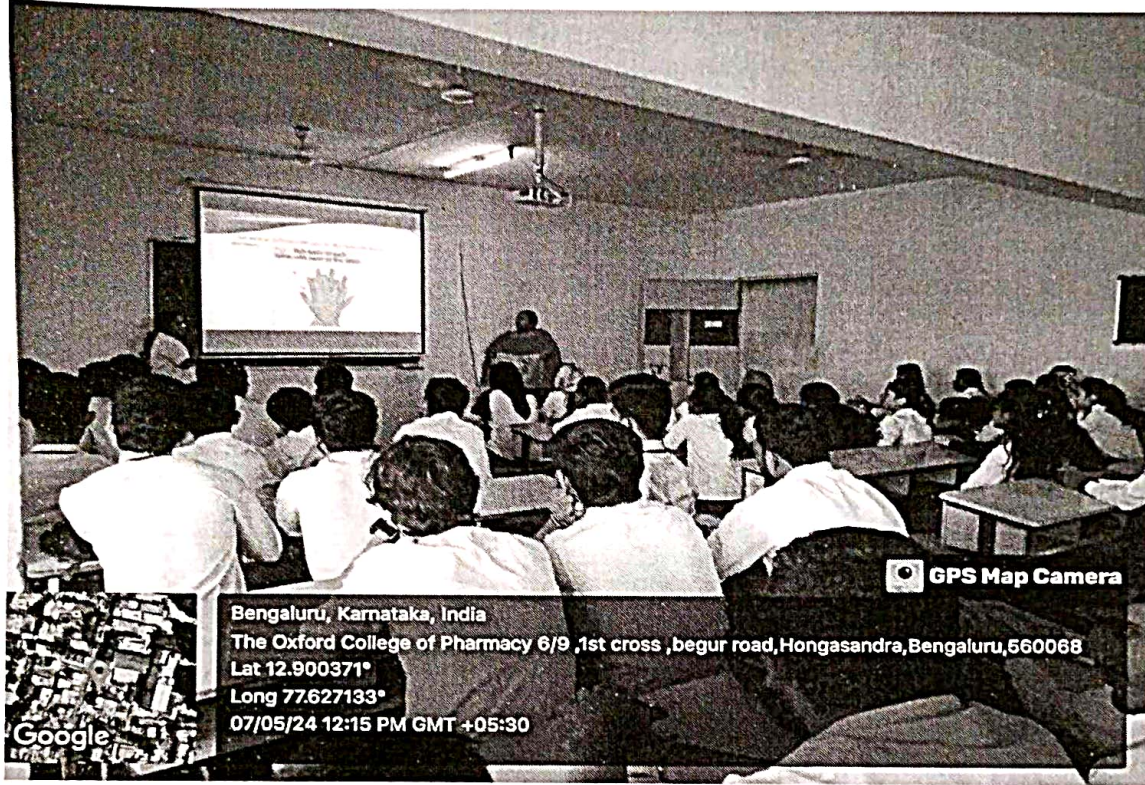

The seminar on "Developing a Winning Business Idea" was organized by the Department of Pharmaceutical Chemistry, The Oxford College of Pharmacy, Bengaluru. Dr. Nagalakshmi introduced the speaker for the day, D. Chitra. D. Chitra's session was informative, practical, and highly interactive, focusing on the key elements involved in developing a business idea that stands out in today's competitive market. D. Chitra stressed the importance of identifying a genuine market need or problem that your business idea could address. She explained that the most successful businesses often emerge from solving real problems faced by consumers. She recommended conducting thorough market research, talking to potential customers, and observing market trends to identify pain points that can be addressed with innovative solutions. The session fostered the importance of creativity in business ideation. She encouraged participants to think beyond the obvious solutions and explore out-of-the-box ideas. Techniques such as brainstorming, mind mapping, and design thinking were discussed as effective ways to generate a wide array of ideas before narrowing down to the most feasible and impactful ones. The seminar concluded with a summary of the key points discussed, along with practical advice on how to develop and implement a winning business idea. Dr. Nagalakshmi thanked D. Chitra for her insightful presentation and encouraged attendees to apply the learnings from the seminar to their own business aspirations.

PREAMBLE

The Oxford College of Pharmacy in Bengaluru conducted orientation program for its newly admitted Pharm. D students. The program commenced with a general induction session, during which the college's principal, Dr. Padmaa M Paarakh, introduced the students to the institution. She also provided detailed information on the academic aspects, including the institution's rules and regulations, curricular aspects and examination patterns that include both continuous and internal assessments. 20 students participated in the program.

Chief Guest, Dr. Sharan Srinivasan, Chairman, P R S Neurosciences & Mechatronics Research Institute (PNMRI), Bangalore, Karnataka has given a talk on importance of higher studies and congratulated all students and parents for choosing a noble career.

Shri Shivabasavaiah, Governing Council Member, The Oxford Educational Institutions, discussed about the decorum to be maintained in the college and in pharmacy profession. He also mentioned the academic performance and scholarship which will be provided by the institution.

Mrs. Pradeepa Prasad, the Class Coordinator of the Department of Pharmaceutical Chemistry, provided an overview of the syllabus, subjects and departments like Pharmaceutics, Pharmaceutical Chemistry, Pharmacy practice, Pharmacognosy and Pharmacology departments.

Dr. Parthasarathy, HOD, Department of Pharmacy Practice provided an introductory session on the Department of Pharmacy Practice and the employment opportunities available for Pharm D students.

The placement officer, Dr. Vikram, elaborated on the scope and opportunities available in the field of pharmacy. Dr. Padmaa M Paarakh also provided detailed information on the Department of Pharmacognosy. The day was concluded with a student-teacher and teacher-parent interactive meeting that outlined the student council and the various club activities available at the institution.

During this program, the students had a chance to interact one-on-one with the class coordinators regarding their bio-data. The program concluded with the collection of feedback from the students.

OUTCOME OF THE PROGRAMME

The Orientation Programme for 20 Pharm D students was received with great enthusiasm. The Principal provided a comprehensive overview of the academic procedures, including the subjects to be studied throughout the course and details about the sessional examinations. By the conclusion of the session, students had gained valuable insights into the upcoming academic sessions, the significance of attending seminars and conferences, and the diverse career opportunities available in the field of pharmacy.

Approved by Pharmacy Council of India, New Delhi)

Accredited by NAAC and International Accreditation Organization (IAO)

OUTCOME OF THE PROGRAMME

The Orientation Programme for 93 I Semester B Pharm students was received with great enthusiasm. The Principal provided a comprehensive overview of the academic procedures, including the subjects to be studied throughout the course and details about the sessional examinations. By the conclusion of the session, students had gained valuable insights into the upcoming academic sessions, the significance of attending seminars and conferences, and the diverse career opportunities available in the field of pharmacy.

PREAMBLE

The National Testing Agency (NTA) conducts the Graduate Pharmacy Aptitude Test (GPAT) exam for admission to M Pharm or equivalent courses. GPAT scores are accepted by 800 participating institutes and all the All-India Council of Technical Education (AICTE) approved institutions and universities. The exam was conducted by AICTE up to 2017, currently PCI is conducting the exam.

GPAT will be conducted by NTA as three-hour entrance examination in Computer Based Test (CBT) mode to evaluate the candidate's ability across various segments, for admission to the Masters (M. Pharm) Program in the academic session. The participating institutions of GPAT are the Institutions which will be accepting the Score of GPAT.

Candidates must apply separately to the desired GPAT-2024 participating Institutions with the GPAT score. Thereafter, each participating Institute will release their respective cut off GPAT Scores which a candidate should meet to get qualified for admission to that particular Institution. Once qualified, the candidate will have to comply with the selection procedure of that particular Institution, which may comprise of Group Discussion (GD) and Personal Interview (PI). The final selection of the candidate will be based on the candidate's performance in GD & PI.

Candidates are advised to read the details of the admission process of each participating Institution of GPAT on their respective websites.

CONTENT OF THE SESSION

On 7th February 2024 The Oxford College of Pharmacy, Department of Pharmacognosy conducted GPAT Exam Preparation Counselling programme. Ms. Chaithra, Speaker has delivered the content of GPAT 2024 eligibility criteria, exam pattern, section-wise marking scheme, preparation tips, subjects etc., speaker interacted with students and cleared doubts and given awareness of GPAT examination among pharmacy students and motivate students to pursue their higher studies.

PREAMBLE

National Institute of Pharmaceutical Education Research (NIPER) are the group of national level Institution of Pharmaceutical Sciences in India. The Government of India has declared the NIPERs as Institution of national importance. They operate as autonomous bodies under the aegis of department of pharmaceuticals, Ministry of Chemicals and Fertilizers.

The NIPER JEE exam is conducted in an online (computer-based) mode. The exam duration is usually 2 hours (120 minutes). The exam contains a total of 200 questions. All the questions in NIPER JEE are multiple-choice questions (MCQs) with four options, out of which candidates must choose the correct answer. Each correct answer carries 1 mark, and there is a negative marking of 0.25 marks for each wrong answer.

Candidates must apply separately to the desired NIPER participating Institutions with the NIPER score. Thereafter, each participating Institute will release their respective cut off NIPER Scores which a candidate should meet to get qualified for admission to that particular Institution. After the declaration of results, qualified candidates are called for counselling. During counselling, candidates can select their preferred NIPER institute and course based on their rank, category, and availability of seats. Required documents are verified during this process. As per government rules, reservations are usually provided for candidates belonging to reserved categories such as SC/ST/OBC/PH. Relaxation in educational qualifications and/or percentage may be applicable. Specific details can be found in the official notification.

Candidates are advised to read the details of the admission process of each participating Institution of NIPER on their respective websites.

CONTENT OF THE SESSION

On 15th February 2024 The Oxford College of Pharmacy, Department of Pharmacognosy conducted NIPER Exam Preparation Counselling. Ms. Chaithra, Speaker has delivered the content of NIPER 2024 eligibility criteria, exam pattern, section-wise marking scheme, preparation tips, subjects etc., speaker interacted with students and cleared doubts and given awareness of NIPER examination among pharmacy students and motivate students to pursue their higher studies.

PREAMBLE

Pharmacist licensure examinations are essential gateways for pharmacy professionals seeking to practice in different countries. Each country or region has unique standards, testing methods, and requirements to ensure that pharmacists are competent to meet local healthcare needs. This overview provides insights into the licensure pathways in prominent global destinations the United States, Canada, the United Kingdom, Australia, and the Gulf Cooperation Council (GCC) countries. Understanding these processes can help aspiring pharmacists navigate the specific exams, qualifications, and practical experiences necessary to achieve licensure and build successful international careers in pharmacy.

CONTENT OF THE SESSION

On 20/01/2024, the Department of Pharmacy Practice at The Oxford College of Pharmacy conducted a seminar titled "Overview of International Pharmacist Licensure Examinations: USA, Canada, UK, Australia, and GCC." The event attracted a total of 45 participants who attended to learn about pathways to international pharmacy licensure. Dr. Parthasarathy G, the organizing secretary, began the seminar by welcoming the guests and participants. He introduced Dr. Abubaker Siddique, an expert in international pharmacy licensure, who delivered the lecture.

Dr. Abubaker Siddique provided an introduction to various licensure examinations required in different countries, highlighting the unique licensure processes for pharmacists in the USA, UK, Australia, and GCC regions. He explained that each country had designed its licensure requirements to reflect specific healthcare needs and regulatory frameworks. Dr. Abubaker Siddique emphasized the importance of understanding these differences for pharmacists aiming to practice abroad. He outlined key examinations, such as NAPLEX for the USA, PEBC for Canada, and KAPS for Australia, stressing their relevance for Pharm D students aspiring to work internationally as registered pharmacists. He concluded by explaining the structure and challenges of these exams, offering practical insights and advice for candidates.

The seminar concluded with Dr. Parthasarathy delivering the vote of thanks, expressing his gratitude to the Principal, Dr. Padmaa M. Paarakh, for her support in organizing the program, and to Dr. Siddique for his informative lecture. Feedback was collected from participants to improve the quality
