PREAMBLE

A seminar titled "HERBAL MEDICINE AND INTELLECTUAL PROPERTY RIGHTS" was conducted on 27/08/2021 at The Oxford College of Pharmacy, Bangalore. Mrs Sravani.T, Organizing Secretary welcomed guests and participants to the seminar. There were a total of 33 participants.

The connection between intellectual property rights and herbal medicine is more than one-sided, bordering on issues like commercialization, legal protection, innovation and globalization. A balanced approach that protects traditional knowledge while promoting innovation and fair sharing of benefits is required in changing IP regime for traditional medicine.

The content delivered in the webinar is as follows:

The speaker Dr. Padmaa M Paarakh, Professor and HOD, Principal, Department of Pharmacognosy, The Oxford College of Pharmacy, Bangalore greeted the participants and highlighted the present Intellectual Property Right (IPR) and regulatory rules for herbal pharmaceuticals in India and developed nations, along with the progress achieved for Regulatory guidelines for Herbal drugs in India. Both herbal medicine and IPR interconnect with each other in many ways. Intellectual property rights includes patents, trademarks, copyrights and trade secrets. The absence of a proper system in the protection of the intellectual property in traditional medicinal knowledge has been a barrier to the development of traditional medicine into a viable health system. In consequence, this has led to holders of traditional knowledge wary of disclosing the information or knowledge in their own countries.

Additionally, speaker mentioned that Herbal drugs are regulated under the act- Drug and Cosmetic Act (D and C) 1940 and Rules 1945 in India. In this, individual provisions have been framed for Ayurveda, Unani, Siddha medicine. Department of AYUSH is the regulatory authority and mandate that any manufacture or marketing of herbal drugs have to be done after obtaining manufacturing license, as applicable.

Additionally, she discussed about the Global Herbal Market and Regulatory Framework in depth and Standardization of phytopharmaceuticals –Regulatory Perspectives, and an Overview of Global Regulatory Requirements. Finally Mrs. Sravani.T delivered the vote of thanks and she thanked Dr. Padmaa M.Paarakh, Principal for giving her an opportunity to organize this seminar.

OUTCOME

There were totally 33 participants. The "Herbal Medicine and Intellectual Property Rights" seminar proved to be a valuable learning experience for the attendees, especially the students. Traditional knowledge which often passes through generations is to be patented if not reported or published. The speakers shed light on the legal and regulatory aspects of the herbal drug industry, highlighting the significance of intellectual property rights and manufacturing requirements, accurate labeling and packaging for ensuring safety and effectiveness. There should be balance between the traditional knowledge holders and interests of the companies' seeking benefits from herbal medicine.
